FORWARD

A few years ago, this book would not have been possible. The terms of collective bargaining contracts, and particularly their wage scales, were shrouded in the deepest secrecy. Before the war, however, this attitude was breaking down. The influence of wartime wage stabilization, which led to publicized "going wage rates" for different industries and communities, also helped negotiators to understand that intelligent wage bargaining can be conducted only against a background of facts.

This special report is that first comprehensive attempt to provide negotiators with facts needed for today's wage bargaining. It is published in the belief that it will fill a long-felt need; that, given the facts on wage rates being paid in other companies, industries and areas, bargaining over wages in a particular plant or business will be made smoother.

WHAT THIS REPORT IS The present volume presents what roughly may be labeled the wage picture at the end of the second postwar round. It sketches the factual background as 1948 wage bargaining gets under way. It brings together in one volume rates being paid in manufacturing and nonmanufacturing industries throughout the country, as reflected in approximately 700 agreements selected from BNA's files. The rates are reproduced just as they are shown in the agreements themselves.

Necessarily, because of space limitations, this report could not show all the wage data which is to be found in BNA's library of union agreements. Instead, the agreements have been selected for reproduction in such a way as to provide the most comprehensive cross-section of the wage scene.

HOW THE REPORT IS SET UP To make this research tool more servicable, listings of wage rates from each contract are preceded by the following facts: (1) names of company and union, where these are not confidential; (2) geographical area in which the company operates; (3) size of community in which operations are located; (4) date the rates became effective; (5) wage reopening date, that is, when the rates are subject to revision; and (6) the amount of bonus paid for shift or night work.

Some contracts specify only the hiring or minimum wage. Other agreements which set out full scales of wage rates to not describe the job classifications to which the scales apply. Some of these scales are reproduced as guides to minimum and maximum rates and as clues to the nature of any wage progression.

Many agreements, of course, do not describe wages at all, omitting even hiring or minimum rates. This is particularly true in piece-work industries. Also, contracts in several industries were largely in process of negotiations in late 1947 or early 1948, and rate information was not available when this report was being compiled. Among those industries for which data in this volume are lacking or of a limited nature are clothing, fur, leather and shoes, railroads, and several of the service trades.

FINDING LISTS Four finding lists appear at the end of the volume. One facilitates checking of rates by union, another by area, and the third, by size of community.

An industry cross-reference list is also provided. It shows the pages where the rates for any industry may be found, and offers suggestions as to other industries which may be examined for similar or related jobs.

HOW THE REPORT MAY BE USED Primarily, of course, this report permits checking of rates for specific jobs. Comparable rates within the same industry are easily located. Broader checking into other portions of the volume offers views of related rates in other industries, in the same or other areas, in various-size communities, etc.

The report serves, too, as a guide to the general level of wages in any given industry. The nature of inter-industry differentials is readily apparent upon comparison of basic jobs in the different industries.

Relationships between jobs in a plant may also be determined. Examination of the comprehensive wage schedules provided by some agreements reveals the spread between rates, for example, from the common laborer, to the semi-skilled, to the skilled craftsman.

It should be noted that rates for clerical and maintenance employees, especially, appear in many of the industry breakdowns. Other basic jobs, too, appear in a great many industries. Thus, rates for machinists or tool and die makers appear in all metal working industries, as well as numerous others.

A NOTE OF CAUTION Whether the report is used in negotiations, arbitration proceedings, teaching, or drafting of intra-plant wage relationships, there must be recognized several limitations inherent in wage material of this nature.

For one thing, rates are often not directly comparable. The distinction between incentive and time-work rates is a prime example. While hourly rates indicate the full pay for an hour, rates for incentive workers may yield hourly earnings well above the base. In all cases, however, the editors have presented any clue offered by the agreement to earnings expectancy over the incentive base rate.

Another point to keep in mind is that the name of a job is only a rough guide to duties covered. Similar job titles may in reality cover dissimilar tasks. In a few cases, the editors have included detailed job descriptions appended by the agreement to the rate schedules.

Although all scales cited in this report were negotiated subsequent to January 1, 1947, a few were scheduled for revision before February 1948. In one instance, for example, rates effective in July 1947 are noted as subject to re-opening in December 1947. Reference to these rates after December, therefore, must be tempered with the realization that they may no longer be current.

On shift bonuses, the editors have presented the size of the premium payment for shift or night work. Though many contracts, in addition, provide paid meal periods on shift operations, these have not been noted, for they generally are tied to shift-scheduling problems not linked fundamentally to wage payments. It should also be kept in mind that absence of a shift-bonus provision in an agreement generally indicates absence of shift operations, and not failure to pay a bonus for such work.

A WORD OF THANKS In presenting this volume, The Bureau of National Affairs wishes to express its grateful appreciation to the companies and unions which have provided copies of their agreements, and particularly to those which have granted permission to reproduce wage scales identified by company and union name. It is our earnest hope that users of this report, recognizing the vital function it serves, will cooperate by sending BNA copies of their agreements, negotiated during 1948, with similar permission to use the wage material contained in them. Company and union officials who make their wage rate public information are no longer merely a handful of courageous pioneers, but an ever-growing group of public-spirited citizens, serving as they do the interest of free collective bargaining.

* 2. Flour Packers - Bonus of .0071¢ per bag over a base of 165 bags packed per hour.

a) Flour Packers as listed on the Flour Packing Basis Agreement Form dated March 5, 1947, will continue to make an individual

agreement with the Company each week as to the average number of bags they will pack per hour above 200, with no maximum.

b) Flour Packer Beginners after March 1, 1947, will receive \$1.16½ per hour but must pack 165 bags per hour within 30 days, and a minimum of 185 bags, and a maximum of 210 bags within 60 days from the time he starts packing and thereafter, or he will be considered unable to be a flour packer and the Company may, at its discretion, return any flour packer falling below the minimum of 185 bags per hour to a job his seniority, ability and qualifications entitle him to, or may keep him on as a flour packer, as they see fit.

c) All beginners, after 60 days, will also make an individual weekly agreement with the Company on the number of bags per hour above 185 he will pack - maximum 210 bags.

d) All Flour Packers will notify their foreman on Monday of each week, the number of bags he will pack per hour for the week beginning the following Wednesday. This information will be shown on the Flour Packers' Weekly Packing Basis Agreement Form and initialed by each packer opposite his name.

e) All Flour Packers will receive base rate of \$1.16½ per hour for all down time and for work they are assigned to in other departments when Packing Department is down.

* 3. Feed Packers - Bonus of .0093¢ per bag over a base of 93 bags packed per hour.

a) As of March 1, 1947, all regular Feed Packers on the Feed Dept. payroll will pack a minimum of 115 bags and a maximum of 130 bags per hour.

b) Feed Packer Beginners as of March 1, 1947 must pack a minimum of 93 bags per hour within the first 30 days, and a minimum of 115 bags and a maximum of 130 bags within 60 days and thereafter, or the Company may, at its discretion, return any Feed Packer falling below this minimum of 115 bags per hour to a job his seniority, ability and qualifications entitle him, or, may keep him on as a Feed Packer, as they see fit.

c) All Feed Packers will, to the best of their ability, spread the average daily quota evenly over the 8 hour period.

d) All Feed Packers will receive Base rate of \$1.16½ per hour for all down time and for work they are assigned to in other departments when Packing Department is down.

** 4. Flour Loaders must carry 130 bags per hour average for an 8 hour day.

** 5. Feed Loaders must carry 130 bags per hour average for an 8 hour day.

*** 6. Sewing Machine Operator - Bonus basis .16½¢ per Hundred bags above a base of 729 bags per hour.

7. Sewing Machine Operator in Mill will not receive a bonus.

3. Overtime - See Article II.

 Heater Helper (No. 2 Unit)
 Heater Helper (No. 3 Unit),

Soda Products Unit, 1st Class Rate: \$1.63 per hour.

Glauber Salt Tender
 Burkeite Tender
 Sal Soda Tender
 Evaporator Tender
 Lithium Tender
 Dryer Tender
 Utility Man (Not in Promotional Sequence).....1-c*

Soda Products Unit, 2nd Class Rate: \$1.47 per hour.

Sludge Tender
 Burkeite Liquor Tender
 Precipitator Tender
 Resaturation Tender
 Product Filter Tender
 No. 1 Process Filter Tender
 No. 2 Process Filter Tender
 Utility Man (Not in Promotional Sequence).....2-c*

Soda Products Unit, 3rd Class Rate: \$1.31 per hour.

Burkeite Yard Tender
 Utility Man

Soda Products Unit, 4th Class Rate: \$1.23 per hour.

Storage Tender
 Soda Products Helper (Dryer Helper)

Crystallizer Unit, 1st Class Rate: \$1.63 per hour.

Granular Potash Tender
 Sulphate of Potash Tender
 Chemical Potash Tender
 Potash Cooler Tender
 Crude Borax Cooler Tender
 Refined Borax Dryer Tender
 Utility Man (Not in Promotional Sequence).....1-c*

Crystallizer Unit, 2nd Class Rate: \$1.47 per hour.

Potash Dryer Tender
 Crude Borax Filter Tender
 Refined Borax Cooler Tender
 Refined Borax Centrifugal Tender
 Chemical Potash Helper
 Potash Centrifugal Tender
 Utility Man (Not in Promotional Sequence).....2-c*

Crystallizer Unit, 3rd Class Rate: \$1.31 per hour.

Leach Potash Helper
 Refined Borax Dryer Helper
 Utility Man

Crystallizer Unit, 4th Class Rate: \$1.23 per hour.

Sulphate of Potash Helper
 Filter Leaf Sewer* (Not in Promotional Sequence)

Borax Conversion Unit, 1st Class Rate: \$1.63 per hr.

Furnace Tender
 Refined Boric Acid Tender*

Borax Conversion Unit, 2nd Class Rate: \$1.47 per hr.

Calcliner Tender (The Calcliner Tender, Jr. job will be eliminated during one unit operation)
 Mill Tender
 Crude Boric Acid Tender

Borax Conversion Unit, 3rd Class Rate: \$1.31 per hr.

Boric Acid Centrifugal Helper

Borax Conversion Unit, 4th Class Rate: \$1.23 per hr.

Borax Conversion Helper

Bromine Unit, 1st Class Rate: \$1.63 per hour.

Bromine Tender

Bromine Unit, 3rd Class Rate: \$1.31 per hour.

Bromine Bottler

Bromine Unit, 4th Class Rate: \$1.23 per hour.

Bromine Packer

Laboratory Section

Senior Analyst \$1.88 per hour
 Associate Analyst \$1.73 per hour

Laboratory Section, 1st Class Rate: \$1.63 per hour.

Junior Analyst
 Sulphate of Potash Analyst

Laboratory Section, 2nd Class Rate: \$1.47 per hour.

Evaporator Analyst
 Soda Products Analyst

Laboratory Section, 3rd Class Rate: \$1.31 per hour.

Sampler

Laboratory Section, 4th Class Rate, \$1.23 per hour.

Laboratory Helper

Shipping Unit, 1st Class Rate: \$1.63 per hour.

Loading Tender 1-c
 Shovel Engineer
 Gas Engine Operator 1-c

Shipping Unit, 2nd Class Rate: \$1.47 per hour.

Loading Tender 2-c
 Gas Engine Operator 2-c
 Blaster
 Drag Line Operator
 Truck Driver 1-c
 (This rate will be paid only when trucking to or from outside stored piles of wet products)

Shipping Unit, 3rd Class Rate: \$1.31 per hour.

Shipping Tender (25 men permanently on this occupation) (see note 5)
 Truck Driver 2-c
 Lithium Dryer Tender
 Borax Dryer Cleanup
 Shovel Helper

Shipping Unit, 4th Class Rate: \$1.23 per hour.

Shipping Helper (25 men permanently on this occupation) (see note 5)
 Cleanup Helper

Shipping Unit, 5th Class Rate: \$1.21 per hour.

General Helper

Notes:

5. The Shipping Tender rate is to be paid for all sack sewing, car dunnaging, barrel coopering work. This rate shall also be paid to one man in each group of men loading bulk or bagged cars. It also shall be paid to all men employed in loading bags of potash or soda ash weighing more than 220 pounds into cars.

SUPPLIES DEPARTMENT:

Bag Room Section, 1st Class Rate: \$1.63 per hour.

Class C Trade Apprentice (After 12 Months)	1.375
Class D Trade Apprentice (After 18 Months)	1.435
Class E Trade Apprentice (After 24 Months)	1.495
Class F Trade Apprentice (After 30 Months)	1.555
Class G Trade Apprentice (After 36 Months)	1.615
Class H Trade Apprentice (After 42 Months)	1.675

*An employe in this classification will be advanced to the First-Class Helper rate at the end of thirty (30) calendar days providing his job performance is satisfactory.

Rate increases within the Tradesman classifications will be made on the basis of the employee's seniority, ability, skill and aptitude in the particular trade. It is agreed that normally three (3) to four (4) years experience in a trade at the Plant will be needed to obtain the trade knowledge and skill required to be classified as a First-Class Tradesman in that trade. Furthermore, the performance of Second and Third-Class Tradesmen will be reviewed prior to granting any increase to an employee in such rate classifications who has less Work Group Seniority than other employees so classified, except that it will not be necessary to review an employee's record with him more frequently than once each three (3) months.

COMPANY: Neville Co.

UNION: District 50, Mine Workers

LOCATION: Pittsburgh, Pa.

SIZE OF COMMUNITY: Over 500,000

EFFECTIVE DATE: June 1947

WAGE REOPENING: April 1948

Shift Bonus: 4¢ on 2nd, 6¢ on 3rd shift

<u>Class</u>	<u>Rate or Rate Range</u>
Helper —Act as helper to tradesmen such as millwrights, pipefitters, machinists, etc. Obtain tools and materials, position work, perform simple operations.	1.21
Helper — Special — Same as helper except has higher skill and more ability.	1.21 - 1.31
Laborer — Move and handle materials, unload cars, dig trenches, shovel snow, miscellaneous work as directed.	1.13
Boiler Fireman —Maintain steam pressure and water level. Operation standardized, but must anticipate variation in steam load. Supervision limited to occasional checks	1.44
Boiler firemen to be hired at \$1.24 with a \$.10 increase after thirty (30) days and another \$.10 increase after ninety (90) days to boiler firemen rate.	
Watchmen —Day and night watchmen making regular inspection trips through the plant	1.16
Storekeeper Assistant — Assistant to storekeeper	1.13
Janitor —Sweep and clean offices, shop areas, wash rooms; remove chips and refuse; scrub floors.	1.11

<u>Class</u>	<u>Rate or Rate Range</u>
Welder —Ordinary arc or acetylene hand welding on a variety of items such as frames, racks, trucks, low pressure tanks. Generally welding for mechanical strength only, on structures not subject to heavy load, high pressure, etc.	1.41
Pump Repairman — Repairs, rebuilds, and maintains pumps of all description	1.355
Insulator — Applies insulating material to lines, tanks and stills requiring high temperatures	1.39
Electrician —Lay out, install and maintain a variety of ordinary electrical equipment such as motors, lighting circuits, starters. Wire fairly complicated circuits. Diagnose and remedy trouble on above equipment. Work from wiring diagrams, schematic drawings	1.575
Carpenter —Lay out and build benches or assembling stands, tool and stock bins, shop partitions. Minor repairs to cabinets, floors, stairs, etc. Operate woodworking machinery, as required.	1.39
Shift Maintenance Men —General repair and maintenance work of all kinds necessary to efficient plant operation.	1.39
Shipper —Prepares materials for shipment and does the necessary handling of materials for that purpose.	1.41
Specialty Pumper and Blender —Loads tankcars for shipment and blends in tanks or tankcars. Must know our materials, tanks, and pumping lines and be able to work with a minimum of supervision. Work is predominantly with water white or semi-refined solvents	1.41

<u>Class</u>	<u>Rate or Rate Range</u>
--------------	-------------------------------

Painter—Brush or spray paint; exterior on buildings, structural steel; interior on flat wall finishes, steel partitions, etc. 1.21

Millwright—Rig, move and install ordinary machines and equipment such as medium size machine tools. Install and maintain group counter and line shafts. Miscellaneous maintenance jobs such as small structural iron work 1.65

Boilermaker — Does boiler maintenance and repair work of all kinds except brick work, and includes the replacement and rolling of tubes for stills, condensers, and boilers1.415

Truck Repairman — Does maintenance and repair work on trucks, cars and tractors owned by the company ...1.39

Truck Driver—Licensed operators, delivering and picking up freight and express locally1.28

Shipping Department Helper — Assists shippers in preparation of orders for shipment 1.14 - 1.24

Burner—Does cutting and burning work and rough welding1.355

Pipefitter—Cuts, threads and fits pipe1.39

Specialty Repairman — Repairs meters, gauges, fire equipment, etc.1.39

Production Helper—Assists regular operators on productive work ... 1.13-1.175

<u>Class</u>	<u>Rate or Rate Range</u>
--------------	-------------------------------

Tank Gauger—Gauges tanks and calculates gallonage1.13

Chief Operator — Supervises operations in the Resin Building and also operates a still1.515

Operator—Class A

Operates distillation units and phenothiazine reactor. Must know materials being handled and be able to anticipate conditions which may arise. Must be able to follow instructions with a minimum of supervision and be able to keep operations on schedule.

1. No. 17 Still, Pilot Plant, No. 16 Still (under construction) Phenothiazine Reactor 1.415

2. Light Oil Still and No. 2 Still 1.375

3. No. 1 Still1.325

Operator—Class B

Operates I.P.E. and Nevillac process, phenothiazine melter, treats pumps and blends crude materials. Operates Naphthalene centrifuge, paint kettle, Nevinol Still and steam blowing kettle1.30

Operator—Class C

Operates P. B. Polymerizer.1.25

Operator—Beginner

Starting rate will be \$1.13 per hour which will be in effect for a 90-day period, after which the rate will be the minimum for Class C Operators.

In every case where a thirty, sixty, or ninety-day period is mentioned in this contract, that period shall be defined as the number of days actually worked at the job and not calendar days.

Group N. Classifications & rate → .90-1.05

1. Tool Crib Attendant

New Personnel employed and placed in Groups B, F, and H Classification, other than those who can qualify as bonified journeymen tool and die makers or tool room machinists, and having less than 4 years tool room experience at the classification for which they are employed, shall serve six (6) months for each year of experience that they lack and at a rate 10¢ per hour lower than the scheduled rate for the classification for each six (6) month period to be served. For example, a man having but one (1) year's experience in a tool room at the classification for which he is employed would start at 30¢ per hour under the rate and advance 10¢ each six (6) months until he attained his rate for the classification at the end of eighteen (18) months.

All apprenticed Tool and Die Makers in Group J, Classification shall receive an increase at the end of each 1000 hours worked (to the nearest full week) which increase shall equal 1/8 of the difference between the starting rate of 75¢ and the top of the range \$1.90, thus making the 8 steps .75-.90-1.04-1.19-1.33-1.48-1.62-1.76-1.90 spaced at 1000 hour intervals.

SQUARE D COMPANY

Classification and Rate Schedules—Detroit Plant

Effective May 26, 1947

MALE—NON-INCENTIVE

	Start	*30 Days	90 Days
CLASS 1	1.12	1.20
a. Sweepers, janitors, elevator operators			
CLASS 2	1.17	1.22	1.28
a. Moveman — transportation and inspection dept.			
b. Tester — hydrostatic machine, raw stock tester, sorting and miscellaneous work			
c. Electric truck operator			
d. Laborers			
CLASS 3	1.21	1.26	1.32
a. Receiving room helper			
CLASS 4	1.28	1.36
a. Tool crib attendant—stores and issues material			
b. Oiler			
CLASS 5	1.33	1.40
a. Tool crib attendant—orders standard tools and supplies; also stores and issues material			
b. Receiving clerk—repair and returned material			
CLASS 6	1.37	1.45
a. Final inspection on standard devices			
b. Millwright helper			
c. Parts inspection—heavy work			
*Days actually worked—8 hours each or equivalent.			
d. Carpenter B			
e. Oiler and machine inspector			
f. Receiving department leader—2nd shift			
g. Tool crib attendant leader			

	Start	*30 Days	90 Days
CLASS 7	1.43	1.50
a. Final inspector—lighting & power panels and units, bus and feeder duct			
b. Inspection leader—standard switches and devices and parts inspection—2nd shift in AN-1; floor inspector leader AN-76			
c. Process inspection—assembly and welding depts.			
d. Inspection—repair and returned material			
CLASS 8	1.47	1.53
a. Second class engineer			
b. Pipe fitter			
c. Packing planner in AF department			
d. Inspection leader — lighting and power panels, bus and feeder duct — regulator devices. DP-35, 38			
e. Receiving clerk			
f. Boiler operator and fireman			
CLASS 9	1.50	1.56
a. Millwright—repairs and new work			
b. Electrician			
c. Carpenter A			
d. Electrical maintenance on breaker inspection equipment			
e. Process inspection—punch press dept.			
f. Switchboard inspector			
CLASS 10	1.53	1.63
a. Electrician leader			
b. Machine repair man			

MODEL MAKERS

Model Maker "C"	1.52	1.59
Model Maker "B"	1.56	1.64
Model Maker "A"	1.61	1.69

0-7	Inspector A	1.50	1.55	1.65

3. Rate Progression

Employees shall be assigned to a job classification and labor grade based on a description of the work normally performed and shall be paid the minimum rate of the rate range; and not later than the first of the seventh month from the date of starting in that position classification, they will be increased to the qualifying rate of their rate range if the supervisor retains them on that position. Employees will not be eligible for the qualifying rate in less than three months. If the employee is not satisfactory on that position, he must be moved to work which he can perform during the probationary period or he will be considered a regular employee on that position. Increases from the qualifying rate to the maximum rate of the labor grade will be made after six months and will be reserved for employees meriting the rate on the basis of being able to perform the full range of the work for that position.

PROGRESSIONS WITHIN LABOR GRADES

At the end of forty-five (45) days, employees in Labor Grade I shall automatically progress to the mid-point of the Grade, and at the end of the next forty-five (45) days, such employees shall progress to the maximum of that Grade.

In all other Labor Grades, newly hired employees shall progress to the mid-point of the grade forty-five (45) days after they have entered such Labor Grade, and the Company will grant such employees a merit increase above the mid-point each forty-five (45) days to the maximum of that grade, provided he has attained normal production requirements.

25	955-1000	1.49	1.56	1.61	1.68	1.73

The primary purpose of the Employer's standard procedures is to provide a standard basis for the establishment of fair and equitable piece work rates on all jobs, within the provisions of this Article XII, such that the piece work earnings of a normal operator working with reasonable incentive skill and effort under normal working conditions should be not less than 120% of Rate No. 5 of the labor grade classification of the respective jobs. This shall not constitute a guarantee, however, that each operator will receive piece work earnings of 120% of Rate No. 5 on each job since an operator must be a normal operator working with reasonable incentive skill and effort in order to earn 120%. It is recognized that production difficulties resulting from shortages of materials and other abnormal conditions will adversely effect incentive earnings of operators on particular jobs from time to time. Incentive earnings on jobs affected by such abnormal conditions shall not be the basis for any grievances. Any dispute arising as to jobs so affected may be submitted to arbitration for determination as to whether such conditions exist.

Section 5. All employees doing piece-rated work shall be assigned and paid standard day rates within the rate range for the labor grade classification of their work in accordance with the Employer's standard procedures.

- (a) Employees shall be assigned day rates on the basis of their individual hourly piece work earnings for definite periods of time. The day rates assigned shall be the highest rates in the respective labor grades which plus ten per cent (10%) of such rates shall most nearly equal but not exceed the average hourly piece work earnings for the required period. The required periods of time to be eligible for the various standard day rates are as follows:

For Rate No. 2 and No. 3-

One (1) Payroll Month

For Rates No. 4 and No. 5

One (1) Payroll Quarter

- (b) Employees' day rates shall be reviewed after each required period of time in an occupation and adjusted up or down according to their average hourly piece work earnings for that period. No employee, however, shall have his day rate reduced below the mid-point of the rate range (Rate No. 3) nor shall an employee with Rate No. 2 be reduced to Rate No. 1 because of earnings in an occupation.
- (c) The day rates assigned to employees shall be guaranteed against change until next review except when employees are transferred to another occupation due to lack of work or disciplinary reasons, or when employees request or voluntarily accept transfers.
- (d) The day rates shall be used for the following wage purposes.
- (1) The minimum wage rate for total time on piece-rated work in a work week.
 - (2) The minimum wage rate for work performed on individual jobs in another occupation to which employee is temporarily assigned.
 - (3) The wage rate for all working time lost while an employee is working on piece-rated work due to Downtime, Company meetings, power breakdown, and Union work.
 - (4) The wage rate for other work done for the benefit of the Employer.
 - (5) The wage rate for all piece-rated work for which no piece rates have been established or for which the piece rates have been temporarily suspended.
- (e) Employees with average hourly piece work earnings for a payroll quarter of 15% or more above the maximum of the rate range shall also be assigned special day rates equal to 90% of their average hourly piece work earnings. These special day rates shall be paid, instead of standard day rates, for
- (1) Other work done for benefit of the Employer which, in general is limited to

work on new models, experimental models, and to rush jobs of a special nature.

- (2) All piece-rated work for which no piece rates have been established or for which the piece rates have been temporarily suspended.
- (3) Union work as set forth in Article X, Section 4.
- (f) These day rates shall not apply to day-rated work which is regularly part of an employee's assigned duties. Such work shall be paid for in accordance with Section 6 of this Article XII.

Section 6. All employees doing day-rated work shall be assigned and paid standard day rates within the rate ranges for the labor grade classification of their work in accordance with the Employer's standard procedures.

- (a) Employees regularly performing work in more than one day-rated occupation shall be assigned separate day rates for each occupation.
- (b) Employees shall be assigned day rates in accordance with their performance on their work as measured by —
 - Progress from effective date of employee's current rate.
 - Quality of work performed.
 - Quantity of work performed.
 - Amount of supervision required.

- (c) The periods of service in an occupation which are required before employees shall be eligible for rate reviews are as follows:

Occupations in Labor Grades	Period of Service For Rate Review
12-17	3 Payroll Months
18-21	4 " "
22-25	6 " "

- (d) Employees with standard day rates Nos. 1 and 2 shall have their rates reviewed on completion of each period of service in an occupation. Employees with day rates Nos.

3 and 4 shall be eligible for rate reviews on completion of required period of service following last rate adjustment. This shall not be construed as limiting merit increases to the next higher rate within the rate range.

- (e) The day rates assigned to employees for work in an occupation shall be used for all working time spent on such work including time lost due to Downtime, Company meetings, power breakdown, other work for benefit of the Employer, and Union work.
- (f) These day rates shall not apply to piece-rated work which is regularly part of an employee's assigned duties. Day rates applying to such work shall be assigned in accordance with Section 5 of this Article XII.

Wiring Machine, Foot	1.10

Section 3. Salt Fish:

a) Piece Rates: The following piece rates shall apply to skinners and bonepullers per one hundred (100) pounds:

<u>Type of Fish</u>	<u>Skinning</u>	<u>Bonepulling</u>	
	Base	Base	Thin
	<u>Quality</u>	<u>Quality</u>	<u>Quality</u>
Large Fish	\$.825	\$.46	\$.60
Medium Fish	1.11	.67	.80
Snappers	1.65	.95	1.18
Hake	1.11		
Haddock	1.65	.95	1.18
Pollack	.825		
Cusk	1.11		

Increases in piece rates for skinning up to sixty (60) per cent may be allowed to compensate for poor quality fish.

Example of base quality fish: Gaspe pickled cured.

Example of poor quality fish requiring sixty per cent increase: Newfoundland thin salt bulk.

In the event that employees who work on piece-work do not make the minimum wage rate in this Agreement, they shall be paid the minimum rate. In the event that bonepullers are unable to make the minimum rate of wages over a period of time, they shall be transferred to another classification. ***

b) Skinning salt fish shall consist of the following operations: removing the skins, fins and tailbone; picking the nape, and cutting the blood off the edge of the nape bone.

Fish measurements for skinners are as follows:

Snappers	--	16 inches or under
Medium	--	16-22-inches
Large Fish	--	22 inches or over

c) Trimming fish shall consist of:

Removing the hockey bone.
Trimming the rib bone off the surface.
Removing remains of tail bone and peth bone.

Inspectors - Male\$ 1.15 per hr. min.

Starting rate for all inexperienced male inspectors shall be .85¢ per hour and they shall receive an increase of $.2\frac{1}{2}$ ¢ per hour every thirty (30) days until they reach the rate of \$1.15 per hour.

Checkers - Female\$.97 $\frac{1}{2}$ per hr. min.

Starting rate for all inexperienced female checkers shall be .80¢ per hour with an increase of $.2\frac{1}{2}$ ¢ per hour every thirty (30) days until the minimum rate of $.97\frac{1}{2}$ ¢ per hour is reached.

CARPENTERS DISTRICT COUNCIL

Wage Schedule

Journeyman Machine Operator and Cabinet Maker \$1.30 per hr.

Starting rate to be \$1.00 per hour with a 5¢ per hour increase every six (6) months until the rate of \$1.30 per hour is reached.

All men classified as Journeyman Machine Operators and Cabinet Makers, must be qualified to do all the work required or be given their immediate release.

Assemblers - Male \$.95 per hr.

Starting rate to be .85¢ per hour with an increase of 5¢ per hour at the end of 60 days and an additional increase of 5¢ per hour at the end of 90 days.

Assemblers - Female \$.90 per hr.

Starting rate to be .80¢ per hour with an increase of 5¢ per hour at the end of 60 days and an additional increase of 5¢ per hour at the end of 90 days.

Bench Hands and Machine Operators - Male \$1.05 per hr.

Starting rate to be .95¢ per hour with an increase of 5¢ per hour at the end of 60 days and an additional increase of 5¢ per hour at the end of 90 days.

Bench Hands and Machine Operators - Female \$1.00 per hr.

Starting rate to be .90¢ per hour with an increase of 5¢ per hour at the end of 60 days and an increase of 5¢ per hour at the end of 90 days.

Machine Setup Men \$1.15 per hr.

Starting rate to be \$1.05 per hour with an increase of 5¢ per hour at the end of 60 days and an additional increase of 5¢ per hour at the end of 90 days.

METAL POLISHERS, BUFFERS, PLATERS & HELPERS INTERNATIONAL

Wage Schedule

Journeyman Polishers and Buffers \$1.50 per hr.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every three (3) months until the Journeyman's rate of \$1.50 per hour is reached.

Journeyman Platers \$1.43 3/4 per hr.

Starting rate to be .85¢ per hour with a 5¢ per hour increase every three (3) months until the rate of \$1.43 3/4 per hour is reached.

Platers Helpers \$1.05 per hr.

Men doing pickling or degreasing should be considered as Platers Helpers.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every month until the rate of \$1.05 per hour is reached.

Chrome Plater Helpers \$1.15 per hr.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every month until the rate of \$1.15 per hour is reached.

Rackers \$.95 per hr.

Starting rate to be .85¢ per hour with a 5¢ per hour increase every month until the rate of .95¢ per hour is reached.

Pipe Polishing Machine Operators \$1.15 per hr.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every month until the rate of \$1.15 per hour is reached.

The men eligible for Apprenticeship Training as polishers and buffers should start as pipe polishing Machine operators and when an opening occurs, they will be given first opportunity to progress to Journeyman Polishers and Buffers on hand machines.

UPHOLSTERERS INTERNATIONAL UNION

Wage Schedule

Journeyman Upholsterers \$1.53½ per hr.

Starting rate to be .80¢ per hour with a .2½¢ per hour increase every 30 days for 24 months thereafter a .3½¢ per hr. every three (3) months until the journeyman's rate is reached.

Upholsterer Helper (Does repetitive work,
flat work, and machine work) . . . \$1.05 per hr.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every month until the rate of \$1.05 per hour is reached.

Sewing Machine Operator \$1.05 per hr.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every month until the rate of \$1.05 per hour is reached.

Cutter \$1.05 per hr.

Starting rate to be .90¢ per hour with a 5¢ per hour increase every month until the rate of \$1.05 per hour is reached.

Assembler - Male \$.95 per hr.

Starting rate to be .85¢ per hr. with a $.2\frac{1}{2}$ per hour increase every thirty (30) days until the rate of .95¢ per hour is reached.

Assembler - Female \$.90 per hr.

Starting rate to be .80¢ per hour with a $.2\frac{1}{2}$ per hour increase every thirty (30) days until the rate of .90¢ per hour is reached.

Spring-Up and Build-Up \$1.00 per hr.

Starting rate to be .85¢ per hour with a 5¢ per hour increase every month until the rate of \$1.00 per hour is reached.

INTERNATIONAL BROTHERHOOD OF ELECTRICAL WORKERS

Wage Schedule and Conditions

Chief Electrician \$1.65 per hr.

Assistant Electrician 1.40 per hr.

Electrician, Chromcraft Plant 1.50 per hr.

It is understood that the Assistant Electrician shall have at least three years training. Starting rate shall be .95¢ per hour with a 5¢ per hour increase every month until the rate of \$1.40 is reached.

Helpers \$1.15 per hour.

Starting rate to be .95¢ per hour with a 5¢ per hour increase every month until the \$1.15 per hour rate is reached.

EFFECTIVE DATE: May 1947
WAGE REOPENING: None specified; 1-yr. agmt.
Shift Bonus: 10% for night work

Learners shall be paid at the rates set forth below and shall be increased as indicated each three (3) months until they have reached the minimum rate of the labor grade of the job for which they are being trained, at which time they shall be classified and shall cease to be learners. Increases are to be effective for the first payroll period commencing on or after the expiration of each successive learner period.

Labor Grade	Starting Rate	3 Mos.	6 Mos.	9 Mos.	12 Mos.	15 Mos.
12	\$.885					
11	.885	.945				
10	.935	1.015				
9	.985	1.035	1.095			
8	.985	1.035	1.095	1.145		
7	.985	1.035	1.095	1.145	1.205	
6	.985	1.035	1.095	1.145	1.205	1.285
S2	.925	1.00				
S2A	.925	1.00	1.07			
S3	.925	1.00	1.07	1.14		
S3A	.925	1.00	1.07	1.14	1.21	
S4	.925	1.00	1.07	1.14	1.21	1.28

The Company will continue to install as expeditiously as possible an incentive system under which a normal operator while working on standard, at a normal incentive rate and under normal conditions may expect to earn 25% above the base rate for the labor grade in which the job falls.

Sec. 14.

The base rates for workers on incentive and the incentive expectancy for the normal worker are as follows:

Labor Grade	Base Rate	Expectancy
12	\$.88	\$1.10
11	.95	1.19
10	1.02	1.275
9	1.12	1.40
8	1.17	1.46
7	1.23	1.54
6	1.30	1.625
5	1.37	1.71
4	1.44	1.80

The day work rates applicable to the several labor grades in the plant shall be those set forth below:

Labor Grade	Low	High	Labor Grade	Low	High
12	\$.885	\$.985	S2	\$1.00	\$1.13
11	.945	1.065	S2A	1.07	1.21
10	1.015	1.135	S3	1.14	1.29

Productive Helper	165	8

SECTION 5. The following jobs are not full-time but are done intermittently by employees who have signed for other jobs. The company agrees that men assigned to these jobs shall be of a labor grade no lower than that indicated after the job title.

<u>Job Title</u>	<u>Labor Grade</u>
Cut-out Bar Chamfering (Milling Machine)	4
Rod Straightening and Cutting Machine Operator	5
Leveling Machine Operator	5
Hydraulic Press Operator (Trays)	5
Large Punch Press Operator (Frames & Trays)	5
Large Punch Press Operator (Bend Legs)	5
Rotary Shear Operator (Trays & Carts)	5
Punch Press Operator (U Bend Frames)	5
Angle Roller Operator	6
Wheel Boring Drill Press Operator	6
Iron Frame Bolter	7
Alligator Shear Operator	8

These jobs have not been evaluated and if any man is permanently assigned to the job the Evaluation Committees must rate the job without prejudice because of the Labor Grades indicated above.

SECTION 6. The following rates are established as of October 1, 1946:

<u>Labor Grade</u>	<u>Class D</u>	<u>Class C</u>	<u>Class B</u>	<u>Class A</u>	These rates, as well as those mentioned in Sections 7 and 11 of this exhibit, shall be increased by three cents (3¢) per hour as of October 1, 1946. As of January 1, 1947 the total increase shall be five cents (5¢) per hour, and as of March 31, 1947 the total increase shall be 10¢ per hour.
1	1.22	1.27	1.33	1.42	
2	1.16	1.20	1.26	1.33	
3	1.11	1.15	1.21	1.27	
4	1.06	1.10	1.15	1.21	
5	1.02	1.06	1.11	1.15	
6	.98	1.01	1.05	1.10	
7	.96	.98	1.01	1.05	
8	.94	.95	.97	.99	

SECTION 7. After an inexperienced man has been hired at the plant minimum of 84¢ per hour, he shall work periods of 320 hours each to qualify for increases. After each 320 hour period he shall receive a rate increase of 5¢ per hour until the Class "D" rate for his job is reached. The last 320 hour period need not be a full 5¢ per hour increase should a lesser amount bring his rate to the Class "D" minimum.

Experienced personnel shall be hired at no less than the Class "D" rate for the job.

Shift Bonus: 8¢ on night shift

The following schedule of base hourly wage rates, wage progressions for new employees and bonus payments are hereby agreed:

STARTING RATES

Male per hour\$.79

Female per hour\$.77

AFTER 30 DAYS

Male per hour\$.84

Female per hour\$.79

School boys start at \$.79 per hour with no base hourly rate progression until thirty (30) days after leaving school permanently.

Fourteen (14) cents per hour will be paid to Shipping and Material Handling Department employees in lieu of incentive bonus earnings.

PRODUCTION BASE RATES — EFFECTIVE MAY 5, 1947

To the hourly earned rate computed for each employee on base rates in
this schedule, there is to be added eleven and one-half (11½) cents.Payment in all classes will be ninety (90) points per hour at base rate
for four (4) weeks. In the event the operator is able to make group rate at
end of earlier period to the satisfaction of the group and the foreman, the
operator may share in group earnings.

CLASS 1

Automatic Bar Machine

All-round operators	\$.685
Starting base rate, first year615
Base Rate, second year635
Base rate, after second year685
All-round set-up man73

CLASS 2A

Grinders, including external, internal, centerless, green
and hard grind and key grinding.

All-round operators66
Starting base rate, first three months615
Base rate, next nine months635
Base rate, after one year66

CLASS 2

Bullards*, Automatic Chuck and Cut-off, Fay Lathes, J & L*,
Gisholt*, Sundstrand, Heat Treat, Carburizing, Cyaniding,
Aerocase and Lead Pot Hardening.

All-round operators655
Starting base rate, first three months615
Base rate, next nine months635
Base rate, after one year655

CLASS 3A

Gear Cutters, all types, Michigan Rack, Red Ring Finisher,
Chamfer, Nick, Burnish, Lap, Dry Cast Iron operations in
Cast Iron Departments.

All-round operators635
Starting base rate, first three months615
Base rate, next nine months625
Base rate, after one year635

CLASS 3

Heat Treat Work: Anneal, Draw (Lead Pot, Homo or Oil).
Straighten, Sandblast, Tumblast, Tablast,
Wire Brush and Miscellaneous Operations,
Helpers on Heat Treat Work.

Milli	Painting
Drill	Painting, spray or dip
Engine Lathes	Fork Straighten
Porter Cable	Metallurgical Inspection
Broach	File and Burr
Grinders, Surface, Groove	Testers and Inspection on groups
Center and Hand	Washing Machines on groups
B & O	Scratch Brush
Warner & Swasey	Assembly, all types
Punch Press	Transmission & Other Production
Tapper and Threader	Repairs
Excella	Wash Bearings
Cut-off Saw	All miscellaneous types machines,
Polish	and operations not listed in
Enamel	other classifications.
Rotary File	Welder

Operators, first class63
Starting base rate, first three months615
Base rate, after three months63

Cast Iron Rates:

Starting rate on heavy cast iron635
Maximum rate, after three months655
Maximum rate, after one year on Bullard, J & L, Gisholt and Gardner Grinder675

agmt.

Note: As of February 1, 1948, a 5-cent increase is to be given each employee. Also, in addition to the rates listed below, the company agrees to pay automatic increases of 5¢ each on April 1 and October 1; increases beyond this 10¢ above the minimum rate are given solely at management's discretion.

Minimum Rate: \$1 min.

JOB CLASSIFICATIONS AND MINIMUM RATES

Assembler A

\$1.35

Complete erection and assembly of all types of Company products. Considerable fitting, aligning and adjusting to close tolerances and precision fits. Finished workmanship and accomplished use of all tools and equipment provided. Requires little or no supervision.

Assembler B

\$1.15

Diversified and general erection or assembly of standard product having fairly liberal tolerances or precision work where gauges are provided. Adjustments usually prescribed. Use of hand and power tools.

Assembler C

\$1.00

Repetitive or simple work on large sub-assemblies or small assemblies, including disassembly. Requires fitting and adjusting to standardized methods. Use of prescribed tools and fixtures.

Beam Maker A

\$1.35

Assemble and erect all beams, beam boxes, veracators or other departmental units into a finished product. Requires layout of holes, and notching graduations not specified on prints. Finished filing, fitting, squaring or adjusting to precision tolerances. May require some machine work. Final balancing of special beams. Work to prints or special instructions. Use of all working equipment.

Beam Maker B

\$1.15

Assemble and erect all standard beams, etc. Standardized methods, broaching, drilling, filing, squaring, etc. Less intricate work. Work from prints. Use all working equipment.

Beam Maker C

\$1.00

Straightens beams, heat treating, balancing of weights, load and unload testing equipment, lathe turning of weights. Various minor jobs in assisting

Class "A" and Class "B" men. Sub-assemblies of beams.

Carpenter (Maintenance) A \$1.35

Lay out work, fit, install and repair wood trim, floors, stairs, casing, office partitions, etc. Make and repair factory and office furniture. Operate woodworking machinery as required.

Carpenter (Maintenance) B \$1.15

Lay out and build benches or assembling stands, tool and stock bins, shop partitions. Minor repairs to cabinets, floors, stairs, etc. Operate woodworking machinery as required.

Carpenter (Maintenance) C \$1.00

Rough work. Cut lumber to dimensions and otherwise assist in making bins, containers or forms. Simple repair work.

Drill Press (Radial) A \$1.35

Highly diversified. Drill, ream, tap, bore, etc. wide variety of large and expensive parts. Lay out work from drawings. Close tolerances. Difficult set-ups of parts or irregular shape, requiring extensive blocking and clamping. Determine feeds, speeds, tooling, operation sequence for exacting operations such as deep drilling or boring, holes at angles, etc.

Drill Press (Radial) B \$1.15

Drill, ream, tap bore, etc. on a variety of ordinary work. Tolerances close, but not difficult to maintain or jig work to close dimensions. Set-ups may require blocking and aligning of parts. Determine speeds, feeds, tooling, operation sequence.

Drill Press (Radial) C \$1.00

Repetitive types of drilling and reaming operations such as cored holes, clearance holes, flat work, etc. Liberal tolerances. Simple set-ups of work or use of fixtures. Speeds, feeds, tooling prescribed.

Drill Press (Sensitive) I \$1.15

Drill, ream, tap bore, etc. to layout or using complicated jigs; close tolerances; set-ups may require blocking and aligning of parts. Determine speeds, feeds, tooling, operation sequence for unusual operations such as very small holes, deep drilling, boring to exacting requirements.

Drill Press (Sensitive) II \$1.00

Drill, ream, tap, bore, etc. to layout or using ordinary jigs, fairly close tolerances. Set-ups require limited amount of blocking and aligning. Speeds, feed, tooling generally prescribed.

Electrician (Maintenance) AA \$1.51

Lay out, install and maintain a wide variety of complete electrical equipment such as involved automatic controls, generating equipment, large switchboards. Establish secondary distribution centers, balanced loads, wire circuits, having a large number of units and connections. Diagnose and remedy any electrical trouble. Work from wiring diagrams and schematic drawings.

Electrician (Maintenance) A \$1.35

Lay out, install and maintain a variety of ordinary electrical equipment such as motors, lighting circuits, starters. Wire fairly complicated circuits. Diagnose and remedy trouble on above equipment. Work from wiring diagrams, schematic drawings.

Electrician (Maintenance) B \$1.15

Make minor adjustments, repairs or replacements to motors, controls, portable electrical tools. Periodic motor maintenance as to air gap, brushes, commutators, etc. Install lighting drop cords, small motors.

Electrician (Production) A \$1.35

Lay out and install complicated wiring and control equipment of machines and apparatus. May involve high tension work. Work from wiring diagrams or schematic drawings.

Electrician (Production) B \$1.15

Install and connect electrical equipment on machines and apparatus, such as motors, controllers for machine tools, ordinary wiring. May work from wiring diagrams and schematic drawings.

Fireman, Low Pressure \$1.00

Tends boilers used for supplying steam heat in shops and offices of manufacturing plant, by hand shoveling coal into firebox, spreading fuel evenly and poke fire to obtain maximum heating value; occasionally reads meter to determine amount of water in boiler and heating system and turns valve handle to admit water as necessary. Shovels ashes from beneath firebox and removes them, usually in barrels or wheelbarrow. May perform maintenance duties as removing waste from building.

Grinder, Internal and External \$1.35

Highly diversified. Wide variety of work having many shoulders, intricate recessing, many steps, tapers, etc. Very close tolerances. Select speeds, feeds, operation sequence. Select and dress wheels for exacting finish requirements and varying materials.

Grinder, Rough \$1.00

Grind castings, remove burrs, finish welt seams, snag castings. Floor type or portable grinder.

Helper, Production \$1.00

Assists various types of machine operators by performing specific or general duties; keeps operator supplied with material; performs routine machine operations, such as loading or unloading; cleans working area, machine and equipment.

Helper, Trades \$1.00

Act as helper to tradesmen, such as millwrights, pipe-fitters, machinists, etc. Obtain tools and materials, position work, perform simple operations.

Inspector A \$1.35

Complete inspection of all company products. Thorough knowledge of company products, orders, specifications and drawings of products. Plan inspection procedure, constructively criticise workmanship and design, decide on allowable variations to meet specified requirements, strict requirements for operation. Full responsibility, etc. Determine reason for defects. Keep records of all products shipped. Devise unusual gauging or measuring set-ups.

Inspector B \$1.15

Final inspection of parts or assemblies of standard products. Fairly complicated final assemblies. Know application of product. Plan inspection procedure. Determine reason for defects. Responsible for decision of quality and finish. Keeps records relating to product inspected. Capable of making rough sketches of simple parts.

Inspector C \$1.00

Detail inspection of parts or minor assemblies. Inspects detail parts to drawings. Recording dimension of various parts for permanent records. Listing of all electrical material on scale or product. Knowledge of dismantled product for packing. Assist in inspection of standard products. Tagging of scale parts. Various minor jobs.

Janitor \$1.00

Sweep and clean offices, shop areas, washrooms, remove chips and refuse; scrub floors. Includes unloading coal cars.

Labor, Common \$1.00

Move and handle materials, unload cars, dig trenches, shovel snow, miscellaneous work as directed.

Lathe, Engine A \$1.35

Wide variety of parts. Very close tolerances. Difficult set-ups, and aligning of work. Select speeds, feeds, tooling, operation sequence for a considerable range of unusual and difficult operations. (Usually lathes under 30").

Lathe, Engine B \$1.15

Turn, bore, face, etc. on a variety of ordinary work. Close tolerances; set-ups exacting but not usually difficult. Select speeds, feeds, tooling, operation sequence for a normal range of operations.

Lathe, Engine C \$1.00

Repetitive work. Simple operations such as turn, face, ream. Fairly close tolerances. Set-ups simple or made by others. Speeds, feeds, tooling usually prescribed.

Lathe, Turret A (Hand Screw Machine) \$1.35

Wide variety of complicated chuck or bar work having unusual shape or formed sections, several close stepped diameters or holes. Close tolerances. Difficult set-ups. Select speeds, feeds, tooling, operation sequence.

Lathe, Turret B (Hand Screw Machine) \$1.15

Variety of work involving ordinary tool setting. Close tolerances. Set-ups exacting but not usually difficult. Select speeds, feeds, tooling, operation sequence.

Lathe, Turret C (Hand Screw Machine) \$1.00

Repetitive work. Set-ups by others. Simple chucking or adjustment of collets. Speeds and feeds prescribed.

Layout Man A (Machine Shop) \$1.35

Layout intricate castings and parts, requires the use of all tools and gauges; work from prints; responsible for accurate work and close tolerances.

Layout Man B (Machine Shop) \$1.15

Layout a variety of ordinary machine parts, usually standardized products. Close tolerances and use of tools provided.

Layout Man A (Sheet Metal) \$1.35

Draws and develops exact patterns and forms on sheet metal and structural iron according to designs specified on blueprints, using all necessary tools. Requires the use of all sheet metal working equipment. May weld and require layout without specifications or prints. Little or no supervision.

Layout Man B (Sheet Metal) \$1.15

Layout from prints and templates. Requires the use of all sheet metal working equipment. Less intricate design. Mostly standard work from templates.

Machine Operator, Tool Room A \$1.35

Plan and perform difficult machine operations on wide variety of tool and machine details. Specialized principally on one machine. Very close tolerances. Complicated set-ups. Determine speeds, feeds, tooling, operation sequence for work having exacting and unusual requirements, e.g., boring jig bodies, or master templates, machining openings or cavities on elaborate multiple dies; grinding, difficult sectional dies; multiple thread cutting; milling special elliptical gears, worms, etc.

Machine Operator, Tool Room B \$1.15

Plan and perform ordinary machine operations on variety of tool and machine details. Specialized principally on one machine. Very close tolerances. Determine speeds, feeds, tooling, operation sequence for work of better than average difficulty, e.g., boring, stripper plates, and spotting templates; grind arbors, spindles, angle plates, turn collets, arbors, circular form cutters; mill die details, spiral cutters, box tools, etc. Set-ups exacting but not usually difficult.

Machine Operator, Tool Room C \$1.00

Plan and perform machine operations on minor tool and machine details. Specialized principally on one machine. Close tolerances. Select speeds, feeds, tooling within a limited range. Determine operation sequence, e.g., grind mandrels, bushing, flat work such as vise jaws; turn spacing collars, counter-bores, reamers, cutting blanks; mill square and rectangular blanding punches, keys, stripper plates, etc.

Machinist A \$1.35

Set up and operate various types of machines such as lathes, milling machines, boring mills, grinders, etc. and perform progressive machining operations for complicated apparatus or equipment with very close tolerances or unusual requirements. Fit and assemble where necessary. Highly diversified.

Machinist B \$1.15

Set-up and operate various types of machines and perform progressive machining operations for apparatus or equipment with ordinary tolerances or requirements. Fit and assemble where necessary.

Machinist C \$1.00

Set-up and operate a limited range of standard machines and perform progressive machining operations for apparatus or equipment where tolerances or requirements are liberal or where machine set-ups are relatively simple. Fit and assemble where necessary.

Mechanic, Maintenance AA \$1.51

All around man who uses various machine and hand tools to produce replacement parts and new parts for mechanical equipment. Required to disassemble, fix and put in working order all machinery for industrial use. Lay

out work, makes dies and fixtures. Be able to locate and fix mechanical trouble.

Milling Machine A \$1.35

Complicated and diversified work. Close tolerances. Difficult set-ups, including index head, vertical or circular attachment. Select speeds, feeds, tooling for a wide range of unusual and difficult work such as spiral cutting, bevel gears, castings of irregular shape or thin sections.

Milling Machine B \$1.15

Diversified work. Close tolerances. Ordinary set-ups, including use of index head, vertical and circular attachments. Select speeds, feeds, tooling for a normal range of operations where several close dimensions must be maintained.

Milling Machine C \$1.00

Repetitive work such as slotting, straddle and slab milling. Fairly liberal tolerances. Simple set-ups or use of fixtures. Speeds, feeds, cutters usually prescribed.

Mason Mechanic \$1.10

Packer I \$1.15

Prepare heavy machines or very delicate apparatus for shipment, involving careful planning of non-standard containers requiring special braces and details. Build crates, boxes and skids to special order.

Packer II \$1.00

Pack large parts or products in standard boxes, crates, or other containers; includes assembly of prepared crates around heavy apparatus. May make standard boxes.

Painter or Sprayer (Production) I \$1.15

Mix paint, lacquer, enamel, etc. to specified color and consistency. Brush or spray products, involving an expert knowledge and experience in decorative spraying, shading, toning and matching colors.

Painter or Sprayer (Production) II \$1.00

Ordinary brush or spray operations on large apparatus, cabinets, machine tools, motors, etc. Requires efficient use of lacquer and a fine finish.

Planer Operator A \$1.35

Wide variety of large work. Close tolerances. Difficult set-ups requiring extensive blocking and aligning of irregular shaped parts. Select speeds, feeds, tooling, operation sequence involving a number of cuts to closely related dimensions.

Sheet Metal Worker B \$1.15

Operate all sheet metal working equipment as listed in Class "A". Work not as difficult or diversified as in Class "A". Work from print, check work for errors. Requires more supervision.

Sheet Metal Worker C \$1.00

Operate sheet metal working equipment, perform a variety of details. Assist Class "A" and Class "B" workers. Less difficult work. Standardized methods. Requires direct supervision.

Shop Clerk \$1.00

Handle paper work in shop offices or for foremen, such as time-keeping, requisitioning materials, etc.

Storekeeper Assistant \$1.35

Orders material by requisition, receives and checks incoming material. Keeps accurate records of all parts. Placing of materials according to specified orders. Handling of all repair orders. Issues parts orders for shop production; keeps and checks all records and parts received from shop production.

Stock Clerk B \$1.15

Check and place in racks all parts received for stock. Assemble all stock items to specified orders. Issue parts orders to production departments for parts not in stock. Put out all factored materials to Erection department. Receiving materials.

Stock Clerk C \$1.00

Receives all rough castings, stores them, delivers orders, blue prints and materials to respective departments. Assists in various minor jobs as putting material in racks, handling and delivery to specific departments.

Tool, Die or Gauge Maker A \$1.35

Plan and construct wide variety of ordinary tools, dies, fixtures, gauges to very close tolerances. Or construct more complex units where design is available. Perform development work, lay out and perform difficult tool room machine operations, do skilled fitting, timing and adjusting, e.g., combination dies for parts or irregular contour, box type drill jigs with difficult locating or nesting features, ordinary index milling fixtures.

Tool, Die, or Gauge Maker B \$1.15

Lay out, construct and repair a limited variety of ordinary tools, dies, fixtures, gauges to close tolerances. Involved development work, skilled fitting of parts, difficult tool room machine operations, e.g., ordinary single and combination perforating and blanking dies, single position milling fixtures, box or stand type drill jigs.

Tool, Die or Gauge Maker C \$1.00

Construct or repair a variety of tools, dies, fixtures, gauges of simple design where standard work methods can be used. Rough out parts for higher class tool makers. Fit and assemble parts, perform ordinary tool room machine operations. Close tolerances, e.g., plate type drill or spotting jigs, vise jaws, tap holders, snap, plug or ring gauges, simple perforating or blanking dies for parts of simple contours.

Tool Keeper I \$1.15

Maintain tool crib. Responsible for records of withdrawals of tools; maintain supplies. Must be familiar with ordinary machining tools and tool sharpening.

Tool Keeper II (Tool Crib Attendant) \$1.00

Issues and receives tools, dies, jigs. Record issues through tags, checks, etc.

Truck Driver \$1.15

Licensed operators, delivering and picking up freight and express locally.

Truck Operator \$1.00

Operate gas or electric drive truck, moving material within plant.

14. Employees Hired On Trial. A new employee being hired for a job classified as labor grade five or above, on which he is experienced, may be hired at 10c per hour below the minimum for the classification as a trial, and after thirty days, he will be increased to the minimum if he meets the requirements of the job.

15. Learner Program. A learner hired and placed on an operation classified labor grade five or six may be hired at 95c per hour. If he has not shown an aptitude for that operation after ninety days, he will be released or transferred to a less skilled operation or to unskilled labor and the rate changed accordingly. If he is retained on the operation after ninety days, his rate will be increased to \$1.05 and then at least 5c every ninety days until the minimum is reached for the classification.

16. A learner hired and placed on an operation classified below labor grade five and above labor grade one, may be hired at 90c per hour and his rate will be increased to 95c per hour after ninety days and further increased at least 5c every ninety days until the minimum is reached for the classification.

17. An employee being up-graded from one classification to another may stay at his old rate for ninety days in the new classification and then be increased at least 5c every ninety days until the minimum is reached for the classification, assuming that his rate is not below that of a learner on that operation at the start and after ninety days.

18. Merit Increases. When an employee has reached the minimum rate of his job classification, merit increases within the rate range of the job may be granted, based upon his job performance as indicated by quality, quantity, versatility and ability to proceed with job and meet standard requirements. Consideration will also be given the employee's personal approach to his job as indicated by his dependability, cooperation with others, and willingness to perform work assigned.

ENGINEERING

101-102 BLUEPRINT OPERATOR & ENGINEERING RECORD CLERK -----	.95 min.
---	----------

142 JUNIOR DETAILER---One who is serving as an apprentice, with or without mechanical drawing experience, whose work consists of tracing, copying, or redrawing details previously drawn, or making slight changes in detail drawings----- 1.25 min.

144 DETAILER---One who makes detail drawings, working from a layout, under supervision of layout man or designer. Must be able to make a drawing that the shop man can use to machine the part, showing all necessary dimensions and tolerances, and specifying material, heat treatment and other necessary information. In the tool design departments, may be breaking in on simple layouts or altering layouts. 1.40 min.

146 MACHINE DETAILER---This classification applies to the Machinery Division only. A detailer who can take a machine layout and carry out the entire detailing assignment with a minimum of supervision. He can detail any part of the machine, including complicated castings, and calculate problems of design requiring a working knowledge of trigonometry. He is familiar with production methods and machining tolerances. He may be doing simple layouts part of the time, preparing for layout classification. 1.65 min.

148 LAYOUT MAN --- One who makes complete and comprehensive layout of tool, jig, fixture, or machine sub-assembly. He works from blue print and process sheet of part to be machined. The layout man actually designs the job, but the design is usually of a less complex nature or closely patterned after a similar previous job, which he uses as a reference. For example, in tool design this would include the average drill jig, milling fixture, cutting tool, or gage layout. In machine design it would mean such jobs as thread grind tooling, tool setting gages, spindle and cutter head layout, and precision bore or special machinery layouts of the simpler class ----- 1.70 min.

150 DESIGNER---One who designs and lays out the more complex jigs, fixtures, machine sub-assemblies, or machines of a simpler type. In tool design he must be able to handle any job that comes up in the department, and he may take charge of the complete tooling assignment for the production of a new part, either designing all tools himself or

supervising their design by a layout man. In machine design he is able to design and layout the more complex machine sub-assemblies, involving hydraulic circuits, and combinations of motions such as fixtures with complicated cycles ----- 2.05 min.

152 MACHINE DESIGNER—One who designs and lays out complete machines or machine tools, either special purpose machines which are designed to do only a certain operation or operations on a particular part, or general use machines which are developed as a standard product. This type of design requires a wider overall knowledge of shop practice, materials and standards of constructions, mechanisms, and hydraulic systems, then standard tool designer qualifications, which are often specialized in one type of design, such as cutting tools, jigs and fixtures, gages, etc.

The machine designer works out the complete design of the machine, including the hydraulic system, specifying which parts are to be purchased as sub-assemblies and which are to be manufactured by Ex-Cell-O Corporation. This requires a knowledge of commercial products in the machinery market, such as power units, different types of spindles and bearings, coolant systems, lubricating and electrical devices, etc.

He works out the electrical equipment needed with the aid of an electrical engineer employed by the Company for that purpose, and determines the most suitable location for such equipment. He determines the approximate size and type of cutting tools needed, but does not usually design them; this work being done by a tool design department.--- 2.20 min.

154 MINOR CHECKER—In tool design this is one who checks layouts of tools, gages, jigs and fixtures for practicability of design and satisfactory operation; also for proper clearances and adaptability to the machine being used for the operation. He checks detail drawings for proper tolerances, materials and heat treatment, and fit, so that details can be machined and assembled with a minimum amount of cost. He is also capable of design and layout work.

In machine design this involves checking work of the type described under layout classification, and the experience and ability required is comparable to that of a layout man. He may

also check work of a more complex nature where he is instructed to check for fit only and is not assuming any responsibility for the design itself ----- 1.80 min.

156 MAJOR CHECKER—One who checks the design, layout, and detail drawings of the most complex tools, jigs, fixtures, machines sub-assemblies, or machines or simpler type. He must have the skill and knowledge required of the designer and may do part-time designing, but the major portion of his time is devoted to checking ----- 2.10 min..

158 MACHINERY CHECKER—One who checks the design and layout and detail drawings of complete machines or machine tools. He must have the skill and knowledge required of the machine designer and may do machine design work part-time, but the major portion of his work is machinery checking---- 2.30 min.

160 JUNIOR PROPOSAL — One who is breaking in on proposal work and is without previous experience in this type of work. Must have previous experience in mechanical drawing and a working knowledge of simple mathematics. Requires close supervision ----- 1.45 min.

162 MINOR PROPOSAL—One who is capable of working out simple proposals with an average amount of supervision ----- 1.70 min.

164 MAJOR PROPOSAL—One who does the preliminary engineering necessary for the Sales Department to submit quotations on new machine tool equipment.

1. He determines method and sequence of operations necessary to machine the part submitted by the customer.
2. He determines the proper tools, feeds, speeds, HP required, and production obtainable.
3. He makes sketch of cutting tools and fixtures, showing proposed locations and clamping points.
4. He makes sketch of machine, showing approximate size and shape of same.
5. He prepares an itemized list of equipment or machine breakdown so the Estimating Department can appraise the cost of building the machine ----- 2.00 min.

665 PROCESS OR ROUTING ENGINEER—Class A Junior—This group includes those who specialize in a particular product, i.e., special

machines or fixtures, are able to lay out the operations on products in that particular line. He is able to do estimating on the simpler types of production work and other parts where no previous costs or operation sheet is available. His work is usually checked ----- 1.60 min.

When hiring inexperienced Blueprint Operators or Engineering Record Clerks, the following rate shall apply: ----- Hiring— .85 min.

When upgrading Engineering Record Clerks or Blueprint Operators to Junior Operator, the following rate shall apply: ----- Starting— 1.00 min.

At the end of the ninety (90) day probationary period, employees hired at the minimum rate of the rate schedule shall receive a five cent (5c) per hour increase.

49. Shop:	Hourly Wage Rate
First Class Mechanics.....	\$1.30
Second Class Mechanics.....	1.15
Third Class Mechanics.....	1.00

New employees who have no experience in the work coming under the jurisdiction of the agreement shall be paid a minimum starting rate of 85c per hour for the first thirty (30) days of employment, a minimum of 90c per hour for the second thirty (30) days of employment, and a minimum of 95c per hour for the third thirty (30) days of employment. After ninety (90) days of employment, they shall be rated as third class men at the rate of \$1.00 per hour.

FIRST CLASS MECHANIC—Employees possessed of high degree of skill capable of satisfactorily carrying on the following duties, lay out work, read and interpret all plans, drawings and sketches, use all tools, instruments, machinery and equipment in his particular trade. The work may be of a diversified nature or may be limited to a narrow range of types of complicated and intricate mechanisms. Usually directs the activities of one or more helpers. This class also includes template makers, maintenance men, first class welders, blacksmiths and inspectors, and the job descriptions of these additional classifications are as follows:

Template Maker—Works from blue prints, makes cardboard, wood and metal templates or patterns, used by others to locate holes, cuts, working lines, etc. Must be high grade man.

Maintenance Man—Repairs and services equipment, installs new equipment.

First Class Welder—Joins steel parts by fusion welding. All around man must be capable of welding thick and thin material using large and small electrodes as required with various types of fluxes and with various kinds of welding machines. Must be reliable and always produce a good strong weld of neat appearance and in the minimum of time.

Blacksmith—Forges and tempers, chisels, forges steel, straightens steel.

Inspector—Inspects welds, inspects finished work for incorrect dimensions, missing parts, careless workmanship, faulty material.

SECOND CLASS MECHANIC—Possessed of a limited degree of skill as compared with a first class mechanic. Capable of handling all tools, machinery and equipment in his Department. The descriptions of the various jobs are as follows:

Punch Press and Shear Operator—Directs the handling of steel to and from the presses and shears, lines up the work in the machine and trips the operating lever or pedal.

Welder—Other than first class.

Drill Press Operator.

Assembler on Production Work—Fits and clamps pieces into their proper places in assembly jigs. Uses portable grinder, hand cutting torch, chipping hammer, electric and pneumatic hoists. Checks various dimension with blueprints.

Learner under Layout Man—Performs work of layout man but needs close supervision and coaching.

Cutting Torch Operator—Operates hand and power driven flame cutting devices.

Tool Room Man—Issues tools and supplies, grinds drills, chisels, makes minor repairs on portable equipment, and requi-

sitions new tools and supplies as needed. Keeps record of welding rod usage for each welding operator.

Paint Spray Man—Operates paint spray gun, mixes paints.

Traveling Yard Crane Operator.

Head Yardman—Directs the crane operator in the movements of the crane. Loads and unloads cars and trucks, lifts into and out of stock racks and piles, fastens chains and slings to load.

THIRD CLASS MEN—A Third Class Man is an employee who assists and whose duties are subordinate to those of a First and Second Class Mechanic. His work may be highly repetitive and routinized. It may involve the handling of material; simple assembly work; or the operation of ordinary machines such as drill press, grinder, and saw; loading and unloading operations; sweeping and general shop and yard labor. Works under constant supervision.

BEGINNERS—A beginner is an employee who has had no experience in the work performed in the department in which he is employed.

USE OF CLASSIFICATIONS

The classifications contained herein are provided because of the needs for such classifications in a master agreement with the full realization that only these classifications pertaining to any one company or any one local lodge bound by this Agreement shall apply.

CLASSIFICATIONS AND RATES OF PAY

Construction Machinist

Minimum Rates
Per Hour

Machinists who are engaged or hired for outside installation of machinery where work is performed through general contractors and in conjunction with building trades shall receive the following rate for the duration of that installation job. Men working at this rate are not eligible to the holiday and vacation benefits. \$ 2.15

Machinists who are regular company employees having seniority shall receive the following rates when performing the work set forth below:

(1) Outside erection and installation of machinery where work is performed outside the plant 2.01

(2) Servicing, dismantling, maintaining and re-erecting of machinery or equipment outside the company's plant where machinery is leased, sold or serviced by the Employer 1.76

(3) Installation of machinery in the Employer's plant where work is not performed in conjunction with construction crafts 1.76

(a) If work is performed in conjunction with major plant additions and in conjunction with construction crafts 2.01

Where Welders are employed in the above classifications of work, they shall receive the rates set forth above.

When Journeymen covered by this contract are engaged in the erection, dismantling and maintenance of machinery or mechanical equipment of breweries, wineries, distilleries, rectifiers, publishing houses and printing press establishments, they shall be paid the hourly rate of 2.01

18. Field Work and Travel. Hourly rates for field work, as defined herein, shall be as follows:

Journeyman Machinists	\$1.95	Helpers	\$1.60
-----------------------	--------	---------	--------

Field work is defined to mean the installation, construction, erection or repair of machinery at a place other than on the employer's premises in the performance of which the employee does not report and terminate at his regular place of employment at the beginning and end of his shift. If the work consists of repair, maintenance or servicing of machinery already installed in a location within a five-mile radius of employer's plant or within the city limits of the city of Portland, if the employer's plant be located in the city of Portland, it will be performed at regular uptown shop rates and not at field rates, provided the day's work starts and terminates at his regular place of employment.

19. Classifications and Wage Rates. The classifications of employees covered by this agreement, and the minimum day shift rates of hourly pay therefor, shall be as set forth below in this section.

TOOL and DIE MAKER \$1.80 Per Hour

Constructs and repairs tools, gauges, jigs, fixtures and dies; plans and lays out work from drawings, blueprints, models or other oral or written specifications; uses a variety of tool and die makers' hand tools, precision measuring instruments; understands the working properties of common metals and

alloys, setting up and operating most classes of tool room machines and related equipment; makes necessary shop computations relating to dimensions of work; tooling of machines, feeds, speeds; fits and assembles components of tools, jigs, dies and fixtures to very close dimensional limits; tests tools under actual operating conditions.

(*) \$1.70 Per Hour

*) Now classification related to classification above; job title and description to be established as soon as possible in accordance with agreement between negotiating committees involved May 7, 1947, and added hereto supplementarily.

JOURNEYMAN MACHINIST \$1.60 Per Hour

Performs efficiently general work connected with the machinist trade, or may be exceptionally proficient in the operation of one class of tools. Uses all machinists' hand tools and measuring instruments; sets up and operates a variety of machine tools; reads and interprets blueprints and uses mathematics. Works to very close tolerances; knows and adjusts for the efficient cutting speeds of various materials; knows the character of cutting tools required in his work and grinds them accordingly.

SPECIALIST \$1.43 Per Hour

Sets up without assistance and operates any of the following:

Broach	Gear Cutting Machines
Turret Lathes	Punch Press
Hub & Shaft Keyseating Machines	Tool & Cutter Sharpeners
Hand & Automatic Milling Machines	Screw Machines
Tapping Machine	Saws:
Single & Multiple Spindle Drills	Power Hacksaw
Radial Drills	Circular Saw
Honing Machine	Metal Band Saw

MACHINIST HELPER \$1.30 Per Hour

Performs tasks in the machine shop such as helping operators to fasten work to machine tables, oiling machines and removing burrs. Uses such equipment as shop hoists, wheelbarrow, hand truck, oil can, wrenches, hacksaw and screw driver. Prepares items for shipment or storage. May use power hacksaw, hand grinders, sanders and files for removing burrs, parting seams, etc.

CLEANUP MAN \$1.20 Per Hour

Performs manual tasks, such as moving material, sweeping and general cleanup work.

UNION: Pulp, Sulphite and Paper Mill Workers--AFL

LOCATION: Middle West

SIZE OF COMMUNITY: Over 500,000

EFFECTIVE DATE: April 1947

WAGE REOPENING: None specified; 1-yr. agmt.

Hiring Rate: 76¢ for men, 71¢ for women; 5¢ increase after 3 mos.

Shift Bonus: 5¢ on 2nd, 7¢ on 3rd shift

If, after computing incentive workers' earnings, the workers' average hourly earnings for the pay period are less than the guaranteed minimum rate, then the guaranteed minimum rate shall be paid. This guaranteed minimum rate is the miscellaneous rate applying to the employees' length of service.

Units—Are the same as the standard hours shown on all existing standard sheets.

Unit Rate—Is one-half of the last previous incentive job rate. Multiply unit rate by units earned to compute earnings on incentive.

Hourly Rate—Is one-half of the last previous incentive job rate plus 26 cents (18 + 8 = 26). Multiply hourly rate by the actual hours worked and add this to earnings on incentive.

D. W.—Is day work hourly rate.

Generally, the number of increases shall be three with no increase to exceed 5c per hour.

PIECE WORK JOBS

Classification A: Base Rate	\$1.028
Check thickness and control—color spray	
Group Leader—Hand Brushers	
Group Leader—Ground Coat	
Unload and Inspect Finished Enamel	
Sand Blast	
Torch, Weld and Braze	
Operator, Large and Toggle Press	
Operator, Hand Screw Machine	
Operator, Shears	
Relief on 21 man line, Assembly	
Inspector, Stove Assembly	
Polish and Buff	
Arc Welder, Production	
Sprayer, Paint	

Classification B: Base Rate.....	\$.978
Surface Preparation before Ground Coat or Paint	
Sprayer, Enamel or Black Edge	
Furnace Tender for Cover Coat, Enamel	
Ground Coat Dipper, Furnace Leader and Transfer Man	
Operator, Roll Marble and Grain	
Operator, Power Brake	
Operator, Punch Press #26, and Small Press # 12 Toledo up to and include 4½ Niagara	
Operator, Tack Weld and Anneal	
Operator, Drill Press and Pipe Threader	
Second Operator—Large Press	
Stove Tester	
Wire Stoves and Pack	
Mounter, Large Stoves	
Rough Grind Castings	
Tank Pickling, Plating and Washing	
Wire, Pipe, Tube Cutting	
Tallyman Unloaders, Store Room	
Solderer	
Electric Welder	
Bench Folding, Hand brake, Hand roller, Hand beading	
Operator, Oven and Unload Box Ovens, Japan	
Combination Job—Inspect, Check and Un- load Japan Dept.	
Bonderite Control Man	
Wash in Naptha	
Operator, Nailing Machine	
Assemble Repair Parts	
Stencil Crates and Deliver to Conveyor	
Store and Deliver Parts	
Saw Lumber	
Bench Nailer and Nail Crate Complete	
Second Operator—Large Shears	

Classification C: Base Rate.....	\$.928
Operator Steel Pickling and Pre-Cleaning Enamel.	
Line Up Production for Spray Booths, Enamel	
Operator, Baling Press	
Mounter—Small Stoves	
Wire and Pack Small Stoves	
Bench Assembly—manifold mounting	
Tallyman on line and castings	
Operator, Load Baled Scrap	
Steel Unloader, Store Room	
Roll. Weld, Grind, Beat Combustion Tubes	
Hand Dip Paint or Aluminum	
Hang and Unload Japanned or painted parts to and from Conveyor or Carrier	
Change stoves from one gas to another— Salvage	
Saw Lumber—Carton, etc. Repair Parts	
Receive, Store and Record, Stock Storage	
Stamp, Weigh and Ship, Repair Parts	

Classification D: Base Rate.....	\$.878
Count, Record, Wrap Finished Parts, Enamel	
Hand Brush Enamel Ware	
Bench Assembly—First Class, Mounting and Sub Assy.	
Decal Enamel	
Operator, Zinc Plate Unit	
Load and Deliver Steel, Band Iron Etc.	
Power Beading	
Testing Tanks	
Jigger for gun welder and helper for spot welder	
Tally and Unload Insulation and Cartons, Stock Storage	
Pipe Bending Press Department Work	

Classification E: Base Rate.....\$.833
Load and Unload Castings, etc. Store Room
Miscellaneous Bench Work—All Departments
Operator, Drill and Tap, Small riveting machine, Shear and Stitch Lighting Rings etc.
Truck Lumber from yard to saw, Crating
Pack and Carton Small Parts, Repair Parts Dept.

Classification F: Base Rate.....\$.783
Helpers, Enamel
Truckers—All Departments
Helper, Small Shear
Helper, Press, etc.

Operator, Perforator Machine
Helper, Load Baled Scrap
Burn, size and roll wicks, etc.
Pack and Carton Painted and Enamel Parts
Mascot Assembly
Helper, Paint
String and Hang Small Parts on Racks, Japan

Classification G: Base Rate.....\$.738
Helper, Nickel and chrome, plating
Helper, Gun Welder
Bench Assembly—wicks, etc.

Classification H: Base Rate.....\$.693
Small Packing Jobs

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial system and for providing a clear audit trail. The second part of the document outlines the procedures for handling disputes and resolving conflicts. It emphasizes the need for open communication and fair resolution of all issues.

2. The third part of the document describes the various methods used to collect and analyze data. This includes both qualitative and quantitative approaches, as well as the use of statistical tools and software. The fourth part of the document discusses the importance of data security and the measures taken to protect sensitive information. It also outlines the procedures for data backup and recovery.

3. The fifth part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial system and for providing a clear audit trail. The sixth part of the document outlines the procedures for handling disputes and resolving conflicts. It emphasizes the need for open communication and fair resolution of all issues.

4. The seventh part of the document describes the various methods used to collect and analyze data. This includes both qualitative and quantitative approaches, as well as the use of statistical tools and software. The eighth part of the document discusses the importance of data security and the measures taken to protect sensitive information. It also outlines the procedures for data backup and recovery.

Rates for Salaried Leaders shall be increased 38.64 per week on the effective date of this Agreement and these rates shall remain in effect during the life of this Agreement.

The rate for Lieutenants in the Plant Protection Department shall be \$1.56 per hour and the rate for Sergeants shall be \$1.45 per hour.

A reserve Working Leader shall receive a rate of 5¢ per hour more than his last classification of record as a non-supervisory employee.

1/ A rate of \$1.84 shall apply to Loftsmen Working Leaders.

2/ A rate of \$1.56 shall apply to Welding Bank and Bottle Rack Working Leaders.

1. The first part of the report discusses the general situation of the company and the results of the survey. It also mentions the objectives of the study and the methodology used.

2. The second part of the report presents the results of the survey in detail. It includes a table showing the distribution of responses for each question.

3. The third part of the report discusses the conclusions drawn from the survey results. It also mentions the limitations of the study and the recommendations for future research.

4. The fourth part of the report is a summary of the findings and a conclusion. It also mentions the limitations of the study and the recommendations for future research.

5. The fifth part of the report is a list of references. It includes the names of the authors and the titles of the books and articles cited in the report.

6. The sixth part of the report is a list of appendices. It includes the names of the tables and figures that are included in the report.

7. The seventh part of the report is a list of footnotes. It includes the names of the authors and the titles of the books and articles cited in the report.

8. The eighth part of the report is a list of acknowledgments. It includes the names of the people who helped in the preparation of the report.

9. The ninth part of the report is a list of the authors. It includes the names of the authors and their addresses.

10. The tenth part of the report is a list of the titles of the books and articles cited in the report.

TEXTILES

Note: A standard minimum wage rate is provided by most textile industry contracts. As of November 1947, the standard minimum in Southern agreements is 87¢. Northern agreements present variations in rates, but the basic minimum in cotton textile contracts, as of January 1948, is 97¢. The Northern woolen and worsted industry minimum is 90¢, subject to revision in February 1948. As a general rule, textile agreements refer only to the minimum rate; few include hourly or piece rate schedules for the different jobs.

COMPANY: Fall River Textile Mfrs. Assn., New Bedford Cotton Mfrs. Assn.
UNION: Textile Workers--CIO

LOCATION: Fall River and New Bedford,
SIZE OF COMMUNITY: 100-500,000 Mass.

EFFECTIVE DATE: August 1947

WAGE REOPENING: January 1948

Hiring Rate: 88¢ min.

Shift Bonus: 7¢ on 3rd shift

Note: The reopening in January 1948 resulted in a 10% increase, raising the minimum rate to 97¢ per hour and average straight-time earnings to \$1.18. These scales are not to be renegotiated until January 1949.

TRANSPORTATION EQUIPMENT

COMPANY: Omaha Standard Body Corp.

UNION: Auto Workers--AFL

LOCATION: Council Bluffs, Iowa

SIZE OF COMMUNITY: 100-500,000

EFFECTIVE DATE: February 1947

WAGE REOPENING: None specified; 1-yr. agmt.

Hiring Rate: 50¢ for learners; increase to classification rates after 30 days

JOB DESCRIPTION AND BASE RATE

1. WOOD MILL

Machine Operator First Class \$1.05½ per hour

A layout man for platform bodies.

An employee who performs wood mill custom work of every nature, and who is able to operate any machine in that department.

Machine Operator Second Class .97 per hour

An employee who operates the following machines:

- Moulder
- Automatic Rip Saw
- Shaper
- Hydraulic Boring Machine
- Multiple Upright Borer

An employee who assists on custom work and who operates a wide variety of machines.

Machine Operator Third Class .85½ per hour

An employee who operates the following machines:

- Planers
- Automatic Jointers
- Hand Jointers
- Dado Saws
- Band Saws
- Boring Machines (except hydraulic and multiple boring machines)
- Tenoner Machines
- Hand Feed Rip Saws
- Cut Off Saws
- Sanders
- Elevator

2. MACHINE SHOP

Machinists \$1.25½ per hour

An employee classified as a journeyman machinist who has served an apprenticeship of four years at the machinist trade or who has equivalent experience and training and who can, with the aid of the machine and hand tools, with or without drawings, make, repair, erect, assemble, or dismantle machinery or parts thereof and perform any other work which may be required of him relating to the overall operations of the Company within this classification.

Blacksmith First Class \$1.05½ per hour

An employee qualified to perform any and all work which the blacksmith would be required to do, including the ability to harden all makes of tools with the equipment and tools that are furnished within the shop.

Blacksmith Second Class .97 per hour

An employee possessing limited qualifications in blacksmith work.

Machine Operator First Class \$1.05½ per hour

An employee who has the ability and is required to operate and set up under supervision all types of machines in that department.

Machine Operator Second Class .97 per hour

An employee who operates the following machines:

- Large Punch Presses
- Drill Press (precision work)
- Sets Up Punch Presses

Machine Operator Third Class .85½ per hour

An employee who operates the following machines:

- Threading Machines
- Drill Presses (common work)
- Small Punch Presses
- Power Hack Saw
- Shears
- Grinders

Welders First Class \$1.12 per hour

An employee required and able to perform satisfactorily any type of welding on any and all gauges of steel to the satisfaction of the employer, overhead and vertical welding included. (Code Certification not required.)

Welders Second Class 1.05½ per hour

An employee required and able to perform welding in flat or vertical position (repetitive operations on production lines.)

Welders Third Class .97 per hour

An employee required and able to perform tacking on rough assembly welding. Welders in all above classifications must be able to operate cutting torches.

3. MAINTENANCE DEPARTMENT

Maintenance Men First Class \$1.05½ per hour

An employee who has the ability to repair and keep all machines in proper working order. In addition, he must be able to do electrical work and plumbing as required. This employee does not have, nor is required to have the qualifications of a machinist.

Maintenance Men Second Class .97 per hour

An employee who is qualified to assist maintenance men first class in the work which they perform and can perform the same work under supervision.

Maintenance Men Third Class .85½ per hour

An employee who has only limited qualifications but who is semi-skilled in certain types of work under this classification.

4. ASSEMBLERS, BODY PLATFORM, STOCK RACKS, AND GRAIN SIDES

Assembler First Class .97 per hour

An employee who is qualified and required to completely assemble any and all pre-fabricated or semi-fabricated parts and completely finish the assembly thereof satisfactorily.

Assembler Second Class .85½ per hour

An employee who is qualified and required to assemble pre-fabricated or semi-fabricated parts satisfactorily under supervision.

5. PAINTERS

Sign Painters \$1.15 per hour

An employee who is qualified to do any and all lettering as may be required, satisfactory to the employer.

Painters First Class \$1.05½ per hour

An employee capable of performing finish spray or brush painting satisfactorily and also must be able to mix paints, varnishes, and lacquers. A painter who is able to do striping when required, satisfactorily will also be placed in this classification.

Painters Second Class .97 per hour

An employee who is qualified and required to spray paint racks and bodies in a manner satisfactory to the employer but who is not required to have the skill for mixing of all paints, varnishes, and lacquers as is required of a painter first class.

Painters Third Class .85½ per hour

An employee qualified and required to perform painting of assembled parts or individual pieces by dipping; also, must be able to do all rough or solid color brush painting satisfactorily.

6. ASSEMBLERS, TRAILER FRAME UNDERCONSTRUCTION (NEW OR REPAIR WORK)

Assemblers First Class \$1.05½ per hour

Frame layout work, including necessary welding (second class welding.)

Assemblers Second Class .97 per hour

An employee who is qualified and required to perform the following work satisfactorily: assemble fabricated or semi-fabricated parts, operate drill press or straightening press, and do any welding required of welder third class.

Assemblers Third Class .85½ per hour

An employee who is qualified and required to assist assemblers first and second class and who can do limited assembling of fabricated and semi-fabricated parts or install floors in trailers under supervision.

Axle and Brake Assemblers First Class \$1.05½ per hour

An employee qualified and required to completely assemble and install axles, brakes, and all brake control parts and perform any service thereon, including necessary welding (second class welding.)

Axle and Brake Assembler Second Class .97 per hour

An employee qualified and required to perform satisfactorily under supervision the same duties as axle assemblers first class except welding.

Axle and Brake Assemblers Third Class .85½ per hour

An employee qualified and required to assist axle assemblers first and second class.

7. ASSEMBLERS, TRAILER BODIES OF ANY TYPE AND TRUCK BODIES OF ANY TYPE (NEW OR REPAIR WORK)

Assemblers First Class \$1.05½ per hour

An employee who is qualified and required to perform the assembly of fabricated or semi-fabricated wood parts and steel parts, must be able to work and apply sheet metal, construct, repair and install doors, roofs, and any and all component parts of open or closed bodies, operate metal shears, metal forming machines and spot welders, and may perform necessary third class welding.

Assemblers Second Class .97 per hour

An employee who is qualified and required to assemble fabricated or semi-fabricated wood and steel parts and sheet metal work on open or closed type bodies under supervision, but whose capabilities are slightly limited in performance of overall body building operations.

Assemblers Third Class .85½ per hour

An employee who is qualified and required to aid and assist assemblers first and second class perform the work satisfactorily under supervision, and be able to install floors on bodies in open or closed type units.

8. SHIPPING, TRANSPORTATION, MATERIAL HANDLING AND DISTRIBUTION

A. BODY AND TRAILER DELIVERY, MOUNTING, AND LOADING

Body Mounter A .97 per hour

An employee who is qualified and required to mount bodies on motor trucks and set up the component parts thereof; also, must be able to install special type bodies on motor trucks.

Body Mounter B .85½ per hour

An employee who has the same qualifications as Body Mounter A except that he is not required to possess as much skill in the work performed and requires more supervision.

In addition to the operations outlined under 8A, the men in both A and B classes must be qualified and required to take the finished components from the production lines and prepare them for storage, shipping or loading. Employees in this department may be required to work overtime, anything contrary in this contract notwithstanding.

B. STOCK CONTROL

Stock Clerk A .97 per hour

An employee qualified and required to receive and distribute parts and materials and keep all records thereon in a satisfactory manner.

Stock Clerk B .85½ per hour

An employee qualified and required to work in the stock room and assist Stock Clerk A in distributing materials and keeping the stock room in satisfactory manner under supervision.

C. TRANSPORTATION, DISTRIBUTION AND HANDLING OF MATERIALS

Truck Driver First Class .94 per hour

An employee qualified and required to spend the majority of his time making deliveries or picking up materials outside of the metropolitan area where plant is located.

Truck Driver Second Class .89 per hour

An employee qualified and required to operate motor trucks and transport materials satisfactorily from one plant to another and within the metropolitan area of Omaha and Council Bluffs.

Crane Operator First Class .97 per hour

Operation of all overhead power operated cranes and derricks.

The use of power cranes and derricks is not constant and only requires a minimum portion of operator's time; it is therefore, necessary that the men assigned to this operation be qualified to carry on other duties in connection with transportation and distribution.

9. GENERAL

Leadmen (\$.15 per hour over the rate of the classification in which they are working)

An employee required and capable of satisfactorily taking responsibility of production over other men in the same or lower classifications as may be assigned him, with power delegated from the supervisor.

He must also possess all the skills of the other men in the same classification.

Firemen .85½ per hour

Must be able to fire steam boiler satisfactorily. Requires no license.

Laborers (Laborers shall reach a maximum of .79½ per hour after sixty days)

Laborers' duties shall consist of helping machine operators and maintenance men, materials moving, removing scrap, loading and unloading cars, cleaning weld splatter, outside and inside cleaning tasks, sweeping and similar work required as labor work.

COMPANY: Confidential (Railway Cars, Engines, Equipment)

UNION: Electrical Workers--CIO

LOCATION: Middle West

SIZE OF COMMUNITY: Under 25,000

EFFECTIVE DATE: June 1947

WAGE REOPENING: December 1947

Shift Bonus: 5¢ for night work

Starting rate and rate for trainee for classifications 3-3, 3-4, 3-6, 4-3, 5-7, 12-1, and 12-2, shall be 72.5 cents per hour and for all other classifications shall be 85 cents per hour except as follows:

A. Experienced employees hired for a job shall start at ten cents below the rate for that job, in no event, however, lower than the starting rate specified above, and shall receive the job rate after 30 days on the job. This shall apply to only those employees who received their experience on the job in question elsewhere than with the company.

B. Starting rate and rate for trainee for all classifications for boys in school, up to and including high school, shall be 55 cents per hour; after 60 days, 60 cents per hour; and after 90 days, 65 cents per hour; or not less than legal requirements, which ever may be greater. In case of rehire, starting rate shall be the level of starting rate attained at the time of last employment.

Boys in school up to and including high school, shall be ineligible for rating above the trainee grade in any classification.

COMPANY: Confidential

UNION: Air Line Pilots--AFL

LOCATION: Nationwide

SIZE OF COMMUNITY: --

EFFECTIVE DATE: June 1947

WAGE REOPENING: None specified; 1-yr.
agmt.**PAY FIRST PILOTS:**

SECTION 3. (a) First pilots shall receive annual base pay, payable monthly, as follows:

First year	\$2,200.00 per annum (\$183.33 mo.)
Second year	2,400.00 per annum (200.00 mo.)
Third year	2,600.00 per annum (216.67 mo.)
Fourth year	2,800.00 per annum (233.33 mo.)
Fifth year	3,000.00 per annum (250.00 mo.)
Sixth year	3,200.00 per annum (266.67 mo.)
Seventh year	3,400.00 per annum (283.33 mo.)
Eighth year and thereafter	3,600.00 per annum (300.00 mo.)

(b) The computation of a first pilot's pay shall be in accordance with the aggregate amount of time in the service of the Company on first pilot's base pay status.

SECTION 4. (a) In addition to base pay, each first pilot shall be paid a minimum hourly pay, based upon the speed of equipment flown and whether day or night flying, as follows:

	Day per hr.	Night per hr.
Under 125 MPH	\$4.00	\$6.00
125 up to but not including 140 MPH.....	4.20	6.30
140 up to but not including 155 MPH.....	4.40	6.60
155 up to but not including 175 MPH.....	4.60	6.90
175 up to but not including 200 MPH.....	4.80	7.20
200 up to but not including 225 MPH.....	5.00	7.50
225 up to but not including 250 MPH.....	5.20	7.80
250 up to but not including 275 MPH.....	5.40	8.10
275 up to but not including 300 MPH.....	5.60	8.40
300 up to but not including 325 MPH.....	5.80	8.70

FIRST PILOT'S MILEAGE PAY:

SECTION 6. (a) A first pilot and reserve pilot when flying as a first pilot shall receive monthly mileage pay for all miles per hour flown at an hourly speed of more than 100 miles per hour during each month as follows:

1. \$0.02 (two cents) times the difference between the total miles flown (but not exceeding 10,000) and 100 times the hours flown, plus
2. \$0.015 (one and one-half cents) times the difference between the total miles flown and 10,000.

Example: Assuming 80 hours flying time at 195 miles per hour:

Miles flown in month (80 x 195)	15,600
Less miles at hourly speed of 100 miles (hours flown in month times 100 or 80 x 100)	8,000
Miles to be paid for	7,600

The number of miles to be paid for at 2 cents shall equal 10,000 minus the hours flown in the month times 100; the remaining miles to be paid for at 1.5 cents:

2,000 miles at 2 cents	\$ 40.00
(10,000 - (80 x 100))	
5,600 miles at 1.5 cents	84.00
(7,600 - 2,000)	

Total mileage pay for month\$124.00

GROSS WEIGHT PAY:SECTION 7. First pilots and reserve pilots, when serving as first pilots, shall be paid, in addition to other rates of compensation stipulated in this Agreement, gross weight of airplane rates in accordance with the maximum certificated gross weight of the Company's aircraft as follows: 1³/₄c for each 1,000 pounds of the maximum certificated gross weight of the aircraft for each hour flown, beginning with zero pounds and extending to the maximum certificated gross weight of the airplane:Weight pay example: Douglas DC-3 airplane equals 25,000 lbs. maximum certificated gross weight, 25 x 1³/₄c equals \$0.4375.

For the purposes of computing maximum gross weight pay, the total weight figure to the nearest 1,000 lbs. shall be used.

MINIMUM PAY—RESERVE PILOTS:

SECTION 8. (a) Reserve pilots shall receive copilots' pay while acting as copilots and first pilots' pay while acting as first pilots provided that in any month a reserve pilot shall not receive less than regular copilots' pay based on his total length of service as a pilot with the Company.

The earned pay shall be computed as follows:

1. The copilot's pay and first pilot's pay shall be prorated on the basis of hours flown in the respective capacities.
2. In addition the reserve pilot, while serving in the capacity of a first pilot, shall receive hourly, gross weight and mileage pay, at the rates established for first pilots.

PAY COPILOTS:

SECTION 9. (a) Copilots shall be paid minimum monthly salaries as follows:

One year	First six months	\$265.00 per month
	Second six months	285.00 per month
Two years	Third six months	305.00 per month
	Fourth six months	325.00 per month
Three years	Fifth six months	345.00 per month
	Sixth six months	365.00 per month
Four years	Seventh six months	385.00 per month
	Eighth six months	405.00 per month
Five years	Ninth six months	425.00 per month
	Tenth six months	445.00 per month

After the completion of five years

of service and thereafter 465.00 per month

(b) In addition to his minimum monthly compensation as set forth in Paragraph (a) of this Section, a copilot shall be paid extra compensation at the rate of \$40.00 per month for flying aircraft in excess of 50,000 lbs. and up to but not including 115,000 lbs. maximum certificated gross weight.

WAGE REOPENING: None specified; 1-yr. agmt.

PAY FIRST PILOTS:

SECTION 3. (a) First Pilots shall be paid a minimum base pay, payable monthly, at the following rates:

First year.....	\$2,200.00 per annum
Second year.....	2,400.00 per annum
Third year.....	2,600.00 per annum
Fourth year.....	2,800.00 per annum
Fifth year.....	3,000.00 per annum
Sixth year.....	3,200.00 per annum
Seventh year.....	3,400.00 per annum
Eighth year and thereafter.....	3,600.00 per annum

HOURLY PAY COMPUTATION:

SECTION 4. (a) In addition to base pay, each first pilot or reserve pilot when acting as first pilot, for flying pay purposes, shall be paid hourly flying pay at rates based on the speed of the equipment flown, and whether such flying is day or night.

	Day Per Hr.	Night Per Hr.
Under 125 MPH.....	\$4.00	\$6.00
125 up to but not including 140 MPH.....	4.20	6.30
140 up to but not including 155 MPH.....	4.40	6.60
155 up to but not including 175 MPH.....	4.60	6.90
175 up to but not including 200 MPH.....	4.80	7.20
200 up to but not including 225 MPH.....	5.00	7.50
225 up to but not including 250 MPH.....	5.20	7.80
250 up to but not including 275 MPH.....	5.40	8.10
275 up to but not including 300 MPH.....	5.60	8.40
300 up to but not including 325 MPH.....	5.80	8.70

GROSS WEIGHT PAY:

SECTION 5. First pilots and reserve pilots, when serving as first pilots, shall be paid, in addition to other rates of compensation stipulated in the Agreement, gross weight of airplane rates in accordance with the maximum certificated gross weight of the Company's aircraft as follows: 1-3/4¢ for each 1,000 pounds of the maximum certificated gross weight of the aircraft for each hour flown, beginning with zero pounds and extending to the maximum certificated gross weight of the airplane:

Weight pay example: = 70,000 lbs.

maximum certificated gross weight,

70 x 1-3/4¢ = \$1.22½ per hr.

For the purpose of computing maximum gross weight pay, the total weight figure to the nearest 1,000 lbs. shall be used.

FIRST PILOT'S MILEAGE PAY:

SECTION 6. A first pilot and reserve pilot when flying as a first pilot shall receive monthly mileage pay for all miles per hour flown at an hourly speed of more than 100 miles per hour during each month as follows:

(a) \$0.02 (two cents) times the difference between the total miles flown (but not exceeding 10,000) and 100 times the hours flown, plus

(b) \$0.015 (one and one-half cents) times the difference between the total miles flown and 10,000.

Example: Assuming 80 hours flying time at 205 miles per hour:

Miles flown in month (80 x 205)	16,400
Less miles at hourly speed of 100 miles (hours flown in month times 100 or 80 x 100)	<u>8,000</u>
Miles to be paid for.....	8,400

The number of miles to be paid for at 2 cents shall equal 10,000 minus the hours flown in the month times 100; the remaining miles to be paid for at 1.5 cents.

2,000 miles at 2 cents 10,000 - (80 x 100)	\$ 40.00
6,400 miles at 1.5 cents (8,400 - 2,000)	<u>96.00</u>
Total mileage pay for month.....	\$136.00

PAY. COPILOTS:

SECTION 9. (a) Copilots shall be paid minimum monthly base pay, as follows:

First year..	First six months.....\$280.00 per month
	Second six months..... 300.00 per month
Second year	Third Six months..... 320.00 per month
	Fourth six months..... 340.00 per month
Third year	Fifth six months..... 360.00 per month
	Sixth six months..... 380.00 per month
Fourth year	Seventh six months.....\$400.00 per month
	Eighth six months..... 420.00 per month
After the completion of four years'	
service and thereafter.....	440.00 per month

(b) In view of the international character of the Company's operations, the following hourly rates of compensation for copilots will apply:

(1) In addition to base pay, copilots when serving as regular copilots on twin engine airplanes will be paid at the composite rate of fifty cents (50¢) for each hour flown, whether day or night flying.

(2) In addition to base pay, copilots when serving as second copilots on four engine airplanes will be paid at the composite rate of one dollar (\$1.00) for each hour flown, whether day or night flying.

(3) In addition to base pay, copilots when serving as first copilots on four engine airplanes will be paid at the composite rate of two dollars (\$2.00) for each hour flown, whether day or night flying.

(g)	350 up to but not including 375 MPH....	8.50	12.75
(h)	375 up to but not including 400 MPH....	8.76	13.14

FIRST PILOTS' MILEAGE PAY

A first pilot and reserve pilot, when flying as first pilot, shall also receive mileage pay at monthly mileages of up to and including 10,000 miles; 10,001 to 12,000 miles, inclusive; and in excess of 12,000 miles, respectively, 2¢ per mile for each mile per hour in excess of 100 MPH during the first 10,000 miles flown; thence 1½¢ per mile for each mile per hour in excess of 100 MPH flown between 10,001 miles and 12,000 miles, inclusive; thence 1¢ per mile for each mile per hour in excess of 100 MPH flown in excess of 12,000 miles, such mileage pay to be computed on a "no reverting" basis, as follows:

$\frac{\text{speed} - 100}{\text{speed}}$ times 10,000 miles (or less, if less flown) times 2¢
plus

$\frac{\text{speed} - 100}{\text{speed}}$ times 2,000 miles (or less if less than 12,000 flown) times $1\frac{1}{2}$ ¢
plus

$\frac{\text{speed} - 100}{\text{speed}}$ times miles in excess of 12,000, if any, times 1¢
equals

Mileage pay to be paid.

PAY OF RESERVE PILOTS

Minimum monthly compensation to which a reserve pilot shall be entitled is the amount which he would have earned had he served as copilot during such month. In addition thereto, he shall receive first pilot's hourly and mileage pay while serving as first pilot during such month, but in no month shall his total compensation exceed the amount which he would have received had all of his flying during such month been accomplished as a first pilot, at first pilot's rates and in accordance with his first pilot's longevity.

PAY OF COPILOTS

A copilot shall receive a monthly salary, based upon length of service with the Company as a pilot, as follows:

<u>First year</u>	First six months of service.....	\$250.00 per month
	Second six months of service.....	280.00 per month
<u>Second year</u>	Third six months of service.....	310.00 per month
	Fourth six months of service.....	330.00 per month
<u>Third year</u>	Fifth six months of service.....	350.00 per month
	Sixth six months of service.....	370.00 per month
<u>Fourth year</u>	Seventh six months of service.....	390.00 per month
	Eighth six months of service and thereafter.....	410.00 per month

275 up to but not including 300 mph	5.60	8.40
300 up to but not including 325 mph	5.80	8.70

GROSS WEIGHT PAY

SECTION 5-A.

First pilots and reserve pilots, when serving as first pilots, shall be paid in addition to other rates of compensation stipulated in this agreement, gross weight of airplane rates in accordance with the maximum certificated gross weight of the Company's aircraft as follows: 1 3/4¢ for each 1,000 pounds of the maximum certificated gross weight of the aircraft for each hour flown, beginning with zero pounds and extending to the maximum certificated gross weight of the airplane:

Weight pay example: Douglas DC-3 = 25,200 lbs. maximum certificated gross weight; 25,200 lbs. x 1 3/4¢ per 1000 lbs. = \$0.44 per hour.

For the purposes of computing maximum gross weight pay, the total weight figure to the nearest 1,000 lbs. shall be used.

MILEAGE PAY COMPUTATION

SECTION 6.

First pilots and reserve pilots acting as first pilots, shall be paid, in addition to other pay rates stipulated in this agreement, mileage pay at monthly mileages of under 10,000, and 10,000 miles or more respectively, two cents (2¢) and one and one-half cents (1½¢) a mile for all miles per hour flown at more than an hourly speed of more than 100 miles, such mileage pay to be computed on a "no-reverting" basis.

Example:

- (a) \$0.02 (two cents) times the difference between the total miles flown (but not exceeding 9,999) and 100 times the hours flown, plus
 - (b) \$0.015 (one and one-half cents) times the difference between the total miles flown and 9,999 equals:
- Total monthly mileage pay.

PAY RESERVE PILOTS

SECTION 9.

(a) A reserve pilot shall receive, as a minimum, his copilot's pay and in addition shall receive first pilot's hourly gross weight and mileage pay while acting as first pilot, but in no month shall his total pay exceed the amount which he would have received if all of his flying during that month had been accomplished as first pilot, at first pilot's rates in accordance with his seniority base pay status.

PAY COPILOTS

SECTION 10.

- (a) Copilots shall be paid minimum monthly salaries as follows:

	First six months	\$280.00 per month
One year	Second six months	300.00 per month
	Third six months	320.00 per month
Two years	Fourth six months	340.00 per month
	Fifth six months	360.00 per month
Three years	Sixth six months	380.00 per month
	Seventh six months	400.00 per month
Four years	Eighth six months	420.00 per month
After the completion of four years of service and thereafter.		440.00 per month

CLASSIFICATION FOR RETAIL DEALER ESTABLISHMENTS

1. AUTOMOTIVE GARAGE LABORERS			
CLASS A:	Used Car Helpers, Washers (other than pressure type) Tire and Battery Service Men, Motor Riders, Pick-Up and Delivery Men, Polishers, General Garage Laborers.		Guarantee Per Week
	First 90 days of experience	77c per hour	\$35.42
	Second 90 days of experience	82c per hour	37.72
	After 6 months of experience	87c per hour	40.02
CLASS B:	Watchmen and/or Sweepers (48) hour work week.		
	First 90 days of experience	65c per hour	33.80
	After 90 days of experience	70c per hour	36.40
2. AUTOMOTIVE GARAGE SPECIALISTS			
CLASS A:	Lubrication Men, Heavy Truck Drivers (over one ton).		
	First 90 days of experience	\$.92½ per hour	42.55
	Next 180 days of experience	1.00 per hour	46.00
	After 12 months of experience	1.05 per hour	48.30
CLASS B:	Pressure Type Washers, Kolor Kott, Simonizing, and Rub-Down Man, Utility Man, Paint Shop Helpers, Head Porters.		
	Not less than	95c per hour	43.70

NOTE: There must be one Class A or B employee in all shops.

The wages of Class A and B Garage Specialists working on a flat rate basis shall be computed by multiplying \$1.20 by the number of hours specified for the job in the yearly factory flat rate manual, or as otherwise mutually agreed between employer and Union, with a minimum guarantee of not less than forty (40) hours per week straight time and four (4) hours overtime pay, with all other regular overtime provision standard requirements. In the event a standard charge includes materials, the charge for material shall be agreed to and deducted before computing the employee's percentage.

The following minimum wage shall prevail: (MACHINISTS UNION)

Journeyman Group No. 1: Automobile Mechanics, Welders, Electrical Machinists, \$1.40 per hour, guarantee \$56.00 per week, or forty (40) hours per week.

Journeyman Group No. 2: Metal Men, Body, Fender, Painter, Radiator Repairmen and Trimmers, \$1.50 per hour; guarantee \$60.00 per week, or forty (40) hours per week.

In the event that an employee's wages are based on the charge to the customer, he shall receive \$1.30 per hour for each hour of work as indicated on the job ticket or the work order when issued; and such job ticket shall be written in accordance with the yearly factory flat rate manual. When a repair job is estimated the employee shall receive \$1.30 per hour for the number of hours estimated.

Employees working on a flat rate system shall be entitled to the following guarantee:

Journeyman Group No. 1: Automobile Mechanics, Welders, Electrical Machinists; guarantee \$56.00 per week.

Journeyman Group No. 2: Metal Men, Body, Fender, Painter, Radiator Repairmen and Trimmers; guarantee \$60.00 per week.

Service Salesmen covered by this agreement shall receive \$1.52½ per hour; guarantee \$61.00 per week, or forty (40) hours per week.

Apprentices' starting rate for Automotive Mechanics' apprentices shall be seventy-three (73c) cents per hour, with increases as follows:

First Year:	Second six months 82c per hour, guarantee \$32.80 or 40 hours per week.
Second Year:	First six months 91c per hour, guarantee \$36.40 or 40 hours per week. Second six months \$1.00 per hour, guarantee \$40.00 or 40 hours per week.
Third Year:	First six months \$1.09 per hour, guarantee \$43.60 or 40 hours per week. Second six months \$1.18 per hour, guarantee \$47.20 or 40 hours per week.
Fourth Year:	First six months \$1.27 per hour, guarantee \$50.80 or 40 hours per week. Second six months \$1.36 per hour, guarantee \$54.40 or 40 hours per week.

3. AUTOMOTIVE GARAGE PARTS DEPARTMENT EMPLOYEES

CLASS AA:		Guarantee Per Week
(a) Parts Department Managers who customarily handle parts, Panel Truck Parts Salesmen	\$1.15 per hour	\$52.90

*Average rent is to be calculated as follows: Divide total rent paid by the number of apartments or flats rented.

Compute severance or vacation allowance pay at 1/30th of monthly salary per day if 11 days or less are earned.

Compute full year of severance or vacation allowance (14 days) at 46% of monthly salary.

Note: The following memorandum issued by the Chicago Real Estate Board in September, 1947, explains the revisions in the wage scales reproduced above.

"There has not been any change in the wage agreement with the Janitors' Union since May 1, 1946. Unless an increase in the average rent of a building changes the classification of the janitor, there will be no change in a janitor's wage."

CLASSIFICATIONS: In buildings of 6 apartments or more, there are three classifications: (1) where the average rent is \$34.99 or under, (2) average rent \$35.00 to \$59.99, and (3) average rent \$60.00.

- (1) In buildings where the average rent is \$34.99 or less, janitors' wages will remain the same.
- (2) In buildings where the average rent remains within the amounts of \$35.00 and \$59.99, janitors' wages will remain the same.
- (3) In buildings where the average rents are \$60.00 or more, janitors are entitled to an increase in wages.

In buildings containing 2, 3, 4 and 5 apartments where the average rent is \$60.00 or less, the same minimum rates, as recorded in the wage scale prevail. They are: 2 apartments \$15.87; 3 apartments \$21.82; 4 apartments \$25.13; and 5 apartments \$28.43.

COMPUTATION OF JANITORS' WAGES WHERE THE AVERAGE MONTHLY RENT EXCEEDS \$60.00:

Buildings of 5 apartments or more: Divide total monthly rental by 60 (carry total two figures beyond decimal). Multiply result by \$5.092 (the janitor's wage for servicing each \$60.00 rental). In case the janitor does not live in the building, add \$6.00 in lieu of living quarters where buildings contain 5 to 17 units and \$12.00 in lieu of living quarters where buildings contain 18 or more units.

Buildings of less than six apartments: Divide total monthly rental by 60 (carry total two figures beyond decimal). Multiply result by the amount the janitor is entitled to receive for servicing each \$60.00 rental. The amount of compensation per \$60.00 rental varies with the number of units in the building, as follows: Two Apartment Building - \$7.94; Three Apartment Building - \$7.27; Four Apartment Building - \$6.28; and Five Apartment Building - \$5.69.

COMPANY: Minneapolis Star and Tribune Co.

UNION: Office Employees--AFL

LOCATION: Minneapolis, Minn.

SIZE OF COMMUNITY: 100-500,000

EFFECTIVE DATE: March 1947

WAGE REOPENING: March 1948

Shift Bonus: $12\frac{1}{2}\%$ between 6 p.m. and 6 a.m.

Section 1. Office work shall be divided into the following classifications:

Class 1—

Junior clerks (including dispatch room clerks and messengers, mail clerks and routing clerks)

Typists

Classified phone room solicitors and counter clerks

Class 2—

Intermediate clerks (including traffic clerks, galley clerks, kardex clerks, credit clerks, and junior statistical clerks)

Stenographers

Switchboard operators

Typists in accounting department

Class 3—

Junior bookkeeping clerks

Collectors

Senior clerks (including senior statistical clerks, senior clerk in charge of mimeographing, and senior national advertising schedule clerk)

Assistant cashiers

Bookkeeping machine operators

Class 4—

Senior bookkeeping clerks

Cashiers

Secretaries

Class 5—

Assistant supervisors

Supervisors

Section 4. When an employee is promoted from one classification to a higher classification, the amount of experience credited to him for work in the lower classification shall be determined between the Company and the employee, but the amount deducted from his experience rating shall not exceed one year for each classification his new position is above the former classification and in no event will the amount deducted exceed fifty per cent (50%) of the experience rating in the classification from which the employee is promoted.

Example: A Class 1 employee who has just finished four (4) years of experience and is promoted to Class 2 will be credited with a minimum of three (3) years' experience. If he were promoted from Class 1 to Class 3, he would be credited with a minimum of two (2) years' experience.

Section 5. For the purpose of determining experience credit, employees who are hired for regular full-time work in the same classification they worked as a temporary employee, shall receive experience credit for actual time worked as a temporary employee.

ARTICLE IX—WAGE SCHEDULES

Section 1. Wages shall be paid weekly for all work performed during the work week and shall not be less than the following minimum wage schedules:

Class 1	First 3 Months.....	\$28.00
	Second 3 Months.....	29.00
	Second 6 Months.....	30.50
	2nd Year.....	31.50
	3rd Year.....	33.00
	4th Year.....	34.50
	5th Year.....	36.00
	6th Year.....	37.50
Class 2	First 3 Months.....	31.00
	Second 3 Months.....	32.00
	Second 6 Months.....	33.50
	2nd Year.....	34.50
	3rd Year.....	36.00

	4th Year.....	37.50
	5th Year.....	39.00
	6th Year.....	40.50
Class 3	First 3 Months.....	34.00
	Second 3 Months.....	35.00
	Second 6 Months.....	36.50
	2nd Year.....	37.50
	3rd Year.....	39.00
	4th Year.....	40.50
	5th Year.....	42.00
	6th Year.....	43.50
Class 4	First 3 Months.....	37.00
	Second 3 Months.....	38.00
	Second 6 Months.....	39.50
	2nd Year.....	40.50
	3rd Year.....	42.00
	4th Year.....	43.50
	5th Year.....	45.00
	6th Year.....	46.50

Class 5

Assistant supervisors shall receive Class 4 schedules plus 5%.

Supervisors shall receive Class 4 schedules plus 10%.

Section 2. An employee who has worked in one department for less than forty (40) hours per week but at least twenty (20) hours per week shall, after thirteen (13) consecutive weeks of such work, be paid thereafter at a rate 10% above the minimum hourly rate for the classification in which employed. It is recognized that part of such premium pay is additional compensation in lieu of the benefits provided for regular full-time employees by Article VI of this contract.

Section 3. Temporary and part time employees shall be paid at the rate of 86c per hour. It is recognized that 6c of such hourly rate is additional compensation in lieu of the benefits provided for regular full-time employees by Article V and Article VI of this contract.

COMPANY: American Broadcasting Co.,
Inc.

UNION: Radio Artists--AFL

LOCATION: Interstate

SIZE OF COMMUNITY: --

EFFECTIVE DATE: January 1947

WAGE REOPENING: November 1947 if
BLS cost of living index shows 10%
increase over November 1946 levels

**SCHEDULE OF MINIMUM FEES AND CONDITIONS FOR RADIO ARTISTS APPEARING ON
COMMERCIAL PROGRAMS USING THE FACILITIES OF THE NATIONAL BROADCASTING
COMPANY, THE AMERICAN BROADCASTING COMPANY, THE COLUMBIA AND MUTUAL
BROADCASTING SYSTEMS AND THEIR SEVERAL STATIONS**

ACTORS

<i>Length of Program</i>	<i>Fee</i>	<i>Re-broadcast fee</i>
15 minutes or less	\$21.75	\$14.50
16 to 30 minutes	36.25	18.25
31 to 60 minutes	50.75	25.50

Rehearsal: \$8.75 per hour, first hour required; after first hour, rehearsal may be computed and paid in half-hour periods at the rate of \$4.38 per half hour or part thereof. Each rehearsal session shall be computed and paid for as a separate unit and no such session shall be computed as less than one hour. Individual compensation shall be on the basis of time contracted for, but additional rehearsal time may be requested and if agreed to, paid for.

Thirteen Weeks' Continuous Guarantee:

(a) Where a producer on a fifteen minute dramatic strip show by written contract with the actor guarantees a thirteen weeks' continuous non-cancellable engagement on such show, the producer may discount the actor's scales to the extent shown in the following schedule if the producer guarantees the actor the minimum amounts shown in the schedule, no matter whether he plays or rehearses or not. Base rate on rehearsals where such discount is effective is \$8.75 per hour. The schedule follows:

SINGLE BROADCAST PER DAY

<i>Number of Appearances per Week</i>	<i>Discount</i>	<i>Guaranteed Minimum</i>
5	15%	\$152.50
4	10%	145.25
3	5%	116.25

BROADCAST AND REPEAT

<i>Number of Appearances per Week</i>	<i>Discount</i>	<i>Guaranteed Minimum</i>
5	15%	\$203.25
4	10%	181.50
3	5%	145.25

ADVANCE RECORDING PLUS LIVE NETWORK BROADCAST
 (Each appearance means one for recording and one for live)

<i>Number of Appearances per Week</i>	<i>Discount</i>	<i>Guaranteed Minimum</i>
5	15%	\$232.25
4	10%	210.50
3	5%	167.00

The compensation which shall be paid to the performer under a thirteen weeks' continuous guarantee contract as above specified, shall be the applicable fees plus rehearsal pay, less the discount above set forth, or the guaranteed minimum, whichever is higher.

(b) On written guaranteed continuous thirteen weeks' non-cancellable engagement of actors for half-hour and hour shows, a discount from scale of ten per cent. of the basic scale is allowed.

(c) Where an artist is engaged under a minimum 13 week, continuous, guaranteed, non-cancellable contract, and producer desires to renew such engagement, he shall give artist not less than two weeks' written notice of such intention prior to termination of any 13 week period, and such renewal shall be effective on acceptance by the artist.

Program Auditions: Shall be paid for at one-half the broadcast fee. Rehearsal time for auditions at the full rate specified for regular broadcasts. This compensation is for program auditions; voice tests may be made without compensation but the producer shall not use this privilege unreasonably.

Dramatized Commercials: Where the actor is engaged for a dramatized commercial, the following minimum scale shall apply:

<i>Length of program</i>	<i>Fee</i>	<i>Re-broadcast fee</i>
15 minutes or less	\$21.75	\$11.00
16 to 36 minutes	29.00	14.50
37 to 60 minutes	36.25	18.25

A fifteen minute rehearsal period prior to the dress rehearsal and the dress rehearsal may be included in the foregoing scale.

ANNOUNCERS

<i>Length of program</i>	<i>Fee</i>	<i>Re-broadcast fee</i>
15 minutes or less	\$21.75	\$14.50
16 to 30 minutes	36.25	18.25
31 to 60 minutes	50.75	25.50

Rehearsal: \$8.75 per hour, first hour required; after first hour, rehearsal may be computed and paid in half-hour periods at the rate of \$4.38 per half hour or part thereof. Rehearsals for programs in excess of 15 minutes, may be held in two sessions, each session to be computed and paid for as a separate unit and no such session shall be computed as less than one hour. Individual compensation shall be based on the time contracted for, but additional rehearsal time may be requested and if agreed to, paid for.

Where announcer is engaged for a commercial program for guaranteed terms of not less than thirteen (13) weeks, on 15 minute programs broadcast five (5) times or more a week, the following minimum weekly compensation may be provided:

<i>Times a week</i>	<i>Weekly Minimum Compensation</i>	<i>Weekly fee for re-broadcast</i>
5	\$116.25	\$57.50
6	133.50	65.75

In such cases of guaranteed term engagements at the weekly rate, 45 minute rehearsal time per day is included.

Sportscasters: Shall be paid at the rate of \$125.00 per event, for play-by-play sportscaster, and \$85.00 per event for assistant sportscaster (color man). An event is whatever the daily ticket of admission buys. Weekly guarantee: The weekly rate, maximum of 7 events pay or play, shall be not less than \$350.00 per week for the play-by-play sportscaster, \$225.00 per week for the assistant sportscaster (color man).

Network Commercial Cut-In Announcements: Shall be paid at the rate of \$14.50 for each such announcement.

Hitchhike Announcements and Cowcatcher Announcements: Shall be paid at the rate of \$14.50 for each such announcement on a 15 minute program, \$20.00 for each such announcement on a half-hour program, \$25.00 for each such announcement on a one-hour program. In the event more than one announcement is made on a program, the announcer shall be paid at the specified rate for each such announcement or at the basic announcer's minimum program and rehearsal rate, whichever is lower.

Program Auditions: Shall be paid for at one-half the broadcast fee. Rehearsal time for auditions at the full rate specified for regular broadcasts. Voice tests may be had without compensation.

SPECIAL PROVISIONS REGARDING ANNOUNCERS:

(a) Where a prior record is made in connection with a five time a week live broadcast, the fee for five such recordings shall be \$72.50.

(b) The 45 minute rehearsal allowed for each of five broadcasts may be computed as 225 minutes to be used by producer as desired within five days. If producer desires, he may use such rehearsal time for prior recordings and announcer agrees to allow 15 minute rehearsal for each live broadcast. These conditions apply only in connection with 13 week non-cancellable contracts.

(c) On five minute local news broadcasts with not less than two per day, originating in New York City only, the fee for the news reporter shall be \$10.00 for each such broadcast.

1. The first part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

2. The second part of the paper describes the various methods used to collect and analyze data. It discusses the importance of using reliable sources of information and the need to carefully evaluate the quality of the data collected. The author also discusses the importance of using statistical methods to analyze the data and to draw valid conclusions from the results.

3. The third part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

4. The fourth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

5. The fifth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

6. The sixth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

7. The seventh part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

8. The eighth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

9. The ninth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

10. The tenth part of the paper discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the success of any business and for the protection of the interests of all parties involved. The author notes that without accurate records, it is impossible to determine the true financial position of a company or to identify areas where improvements can be made.

RETAIL AND WHOLESALE TRADE

COMPANY: Brass and Copper Sales Co.

UNION: Retail and Wholesale Union--
CIO

LOCATION: St. Louis, Mo.

SIZE OF COMMUNITY: Over 500,000

EFFECTIVE DATE: June 1947

WAGE REOPENING: None specified; 1-yr.
agmt.

Hiring Rates: 90¢ for drivers, \$1 min.
after 30 days; 80¢ for porters, 87½¢
min. after 30 days

WAGE REOPENING: None specified; 1-yr. agmt.

BASIC 40-HOUR WEEK

11-A1	VARIETY STORES	
	Journeywomen Minimum	\$30.00 per week
11-A2	DEPARTMENT STORES	
	Journeywomen Minimum	\$32.00 per week
11-A3	SPECIALTY STORES	
	Journeywomen Minimum	\$32.00 per week
11-B	DEPARTMENT STORES	
	Journeyman Minimum	\$42.00 per week
11-C	DEPARTMENT STORES	
	Regular Furniture and Floor Covering	
	Journeyman Minimum	\$50.00 per week

The above drawing account rates in Section 11-C are to be charged against commissions earned on net sales, figured on the following basis: red figures to be wiped out each 60 days; fiscal year figured from February first:

5% on net sales up to \$2,600 averaged monthly each 2 month period.

4% on net sales over \$2,601 to \$5,000 averaged monthly each 2 month period.

Commissions on contract sales carrying a net markup of 10% shall be figured at 2%. Commissions on contract sales carrying 11% to 20% net markup shall be figured at 2%. Commissions on contract sales carrying more than 20% net markup shall be figured at 3%.

Commissions to be computed monthly, deficits to be adjusted as herein provided. Itemized statements of sales to be furnished each salesman. Repossessions not to be deducted after 90 days from date of sale of merchandise to the customer.

11-D DEPARTMENT STORES
Regular Heavy Appliances
(Refrigerators, Radios, Washers,
Ironers, Stoves and Heating Equipment)
Journeywomen Minimum \$50.00 per week

The above drawing account rates are to be charged against earned commissions figured on the basis of present commission rates for salesmen now employed, which commission rates shall continue until June 1, 1948 so long as said salesmen remain with present employers; provided, however, that subsequent to June 1, 1942, commission rates for new salespeople employed within this classification shall be not less than six per cent (6%). Red figures to be wiped out each 60 days. Fiscal year figured from February first.

11-E1 DEPARTMENT STORES
Shoes
Journeywomen Minimum \$33.00 per week

11-E2 DEPARTMENT STORES
Higher Priced Shoes
Journeywomen Minimum \$47.00 per week

Popular Priced and Basement Shoes
Journeywomen Minimum \$44.00 per week

11-F1 DEPARTMENT STORES
Cosmetics, Corsets, Millinery,
Coats, Suits, Dresses
Journeywomen Minimum \$34.00 per week

Commissions: It is agreed that: quotas on coats, suits, and dresses will be established on a basis of 5% or twenty times the drawing account and the commissions for sales over quotas shall be not less than 3%; except, that in those cases in which commission rates in excess of the above are being paid they shall not be reduced for those presently employed.
Commissions are to be figured and paid monthly.

Commission rates for new salespeople employed within this classification shall be not less than those stated above.

It is agreed that where commissions are now paid to individuals in other merchandise classifications or departments, the rates for people presently employed shall remain as they were on June 1, 1947.

11-F2 SPECIALTY STORES
Cosmetics, Corsets, Millinery
Coats, Suits, Dresses
Journeywomen Minimum \$34.00 per week

Commissions: It is agreed that quotas on coats, suits, dresses, millinery and corsets and in other merchandise classifications or departments where commissions are now paid to individuals, will be established on a basis of 5% or twenty times the drawing account and that commissions for sales over quotas shall be not less than 3%; except that in those cases in which commission rates in excess of the above are being paid, they shall not be reduced for those presently employed.

Commissions are to be figured and paid monthly.

Commission rates for new salespeople employed within this classification shall be not less than those stated above.

It is agreed that where commissions are now paid to individuals in other merchandise classifications or departments, the rates for people presently employed shall remain as they were on June 1, 1947.

3. Merit Consideration Beyond Scheduled Wage Progression

3.1 Employees, whose Service Periods now or hereafter equal or exceed six (6) years, shall be considered for merit increases in their rates of pay on the anniversary of their Service Period. Any such increase shall be granted solely at the discretion of the Company.

3.2 It is understood that the Company may, at its discretion, grant merit increases at a time other than the anniversary dates of employees.

3.3 Increases shall not extend an employee's hourly rates beyond \$2.00 in Installation Areas in which Wage Schedule "A" applies and \$1.83 in Installation Areas in which Wage Schedule "B" applies.

3.4 Complaints involving merit wage treatment shall be subject to the grievance procedure but shall not be subject to arbitration.

Traffic Central Office Employees**1. Wage Rates for Supervisors, Service Observers, Senior Central Office Clerks and Dial Service Instructors**

(a) Maximum wage rates for the above positions shall be \$6.00 per week in Schedule "A", "B", and "C" offices and \$5.00 per week in Schedule "D", "E", and "F" offices above the maximum wage rates specified in the attached schedules for Traffic operators located in the same office.

(b) Employees shall receive an increase of \$3.00 per week on appointment to the above positions, and further increases of \$1.00 per week at intervals of three months of "wage schedule service" in the above positions until their weekly wage exceeds by \$6.00 in Schedule "A", "B", and "C" offices and by \$5.00 in Schedule "D", "E", and "F" offices the weekly wage specified in the attached schedules for operators in the same office with corresponding periods of "wage schedule service." In the administration of the preceding sentence, employees who have accumulated prior "wage schedule service" in the above positions shall, upon

appointment to the above positions receive credit for such "wage schedule service." In addition to the above increases, such employees shall continue to receive the same wage increases which operators in the same office, with corresponding periods of "wage schedule service," receive under their wage schedules, until the maximum wage rates specified in the preceding paragraph are reached.

2. Wage Rates for Central Office Instructors

Wage rates for central office instructors shall be \$1.00 per week above the amount they would have received as supervisors, service observers, senior central office clerks or dial service instructors.

Traffic Central Office Employees**Evening and Night Differential Payments**

(1) The following evening and night differentials will be paid to employees in Schedule "A" offices:

Tours Ending	Daily Differential Payments

*Apply this schedule after deducting the amount of the employee's promotional increases from his basic rate of pay.
†Includes chauffeurs, as listed under "Buildings and Supplies," when engaged in subway work.

* Progression under this table ceases with attainment of the applicable top rate. When the top rate does not correspond with a rate shown, normal progression to the top rate from the next lower step shown is at the end of an interval of 4 months if the current rate is \$2 below the top; 2 months if \$1 below the top.

** Progression under this table ceases with attainment of the applicable top rate. When the top rate does not correspond with a rate shown, normal progression to the top rate from the next lower step shown is at the end of an interval of 3 months.

† Rate—Basic weekly rate of pay.

Int.—Normal interval in months (subject to the formula for determining date of end of interval) to next normal increase.

Amt.—Normal amount of next increase.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud.

2. The second part of the document outlines the specific procedures for recording transactions. It details the steps involved in the accounting process, from the initial entry of data into the system to the final review and approval of the records. It also discusses the importance of regular audits and the role of internal controls in ensuring the accuracy of the data.

3. The third part of the document discusses the challenges associated with maintaining accurate records. It identifies common sources of error, such as data entry mistakes and incomplete information, and provides strategies for minimizing these risks. It also discusses the importance of ongoing training and education for staff involved in the accounting process.

4. The fourth part of the document discusses the role of technology in the accounting process. It highlights the benefits of using automated systems for data entry and processing, and discusses the importance of ensuring that these systems are secure and reliable. It also discusses the importance of regular updates and maintenance of the accounting software.

5. The fifth part of the document discusses the importance of transparency and accountability in the accounting process. It emphasizes the need for clear communication and documentation of all transactions, and discusses the role of external audits in ensuring the integrity of the financial system.

Footnote:

Area 3 applies to employees headquartered in

Area 2 applies to all other employees.

Step 1 (minimum rate) applies during first six months of employment in any job or jobs classified in the indicated pay group, except as otherwise set forth below.

Step 2 (maximum rate) applies after first six months of employment in any job or jobs classified in the indicated pay group, except as otherwise set forth below.

Promotion. Upon promotion of an employee to a higher rated job, he will be advanced to Step 2 of the applicable pay group if his former rate was equal to or in excess of Step 1 of the pay group applicable to his new job assignment.

Demotion. Upon demotion of an employee to a lower rated job, he will be reduced only to Step 2 of the pay group applicable to his new job assignment.

SECTION I OVERHEAD LINE MAINTENANCE AND CONSTRUCTION CREWS MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Troublemakers	256.00	261.00
Trouble Dispatchers*	236.00	261.00
Apprentice Trouble Dispatchers*—Beginners (a)	146.00	178.00
Apprentice Trouble Dispatchers* (a)	186.00	196.00
Linemen**	235.00	250.00
Patrolmen A***	235.00	250.00
Patrolman B	186.00	196.00
Foresters	214.00	229.00
Apprentice—Linemen or Foresters	186.00	196.00
Trolley Truck Operators****	170.00	185.00
Winch Truck Operators****	165.00	180.00
Truck Operators****	158.00	173.00
Helpers	146.00	164.00

*Operating Division only.
**Linemen used on cut-in and cut-out work must be able to satisfactorily perform the customary duties for such work.
***Patrolmen A shall have the qualifications of Journeyman Linemen.
****These employees shall work as Truck Operators and Helpers. Employees below the classification of Winch Truck Operators shall not be used to operate hole digging machines.
(a) Considered as one job classification. Incremental increases shall be continuous from minimum of "Beginners" rate to maximum of Apprentice Trouble Dispatchers' rate at the regular 6 months intervals.

SECTION II UNDERGROUND CREWS—MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$290.00	\$310.00
Duct Line Foremen*	270.00	283.00
Cable Splicers	280.00	278.00
Apprentice Cable Splicers	211.00	224.00
Mechanics	235.00	250.00
Apprentice Mechanics	186.00	196.00
Hole Helpers	165.00	180.00
Winch Truck Operators**	165.00	180.00
Truck Operators**	158.00	178.00
Helpers	146.00	164.00

*Operating Division only.
**These employees shall work as Truck Operators and Helpers.

SECTIONS III, IV, V, VI SUBSTATION AND GENERATING PLANT MAINTENANCE AND CONSTRUCTION CREWS AND ELECTRIC REPAIR SHOP—MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Switchboard Wiremen*	235.00	256.00
Electricians or Mechanics	235.00	250.00
Apprentice—Electricians or Mechanics	186.00	196.00
Helpers	146.00	164.00

*Regularly do switchboard wiring.

SECTION VII LOAD DISPATCHERS, DIVISION OPERATORS AND SUBSTATION AND GENERATING PLANT SWITCHBOARD OPERATORS—MONTHLY RATES		
Classification	Minimum	Maximum
Load Dispatchers	\$303.00	\$327.00
Assistant Load Dispatchers	273.00	298.00
Chief Division Operators	272.00	292.00
Division Operators	261.00	271.00
Operators A*	229.00	244.00
Operators B*	200.00	212.00
Operators C*	186.00	196.00
Operators D*	160.00	176.00

*Relief Operators regularly relieving at two or more Substations or Generating Plants shall receive \$10 per month above the regular rate for their classification.

SECTION VIII APPLIANCE REPAIRMEN—MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Dispatchers*	256.00	261.00
Appliance Repairmen A	235.00	250.00
Appliance Repairmen B	202.00	212.00
Appliance Repairmen C	182.00	196.00
Helpers	146.00	164.00

*Operating Division only.

SECTION IX SERVICEMEN OUTSIDE OF DIVISION HEADQUARTERS—MONTHLY RATES		
Classification	Minimum	Maximum
Servicemen A	\$235.00	\$250.00
Servicemen B	202.00	212.00
Servicemen C	182.00	196.00
Helpers	146.00	164.00

SECTION X METERMEN—INCLUDING METER LABORATORY MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Metermen A	235.00	250.00
Metermen B	202.00	212.00
Single Phase Meter Installers	182.00	196.00
Single Phase Meter Testers	182.00	196.00
Helpers	146.00	164.00

SECTION XI STEAM HEATING DEPARTMENT —MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Boiler Operators	229.00	244.00
Assistant Boiler Operators	189.00	178.00
Mechanics	235.00	250.00
Apprentice Mechanics	186.00	196.00
Helpers	146.00	164.00

SECTION XII GAS DEPARTMENT —MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Appliance Repairmen A*	235.00	250.00
Appliance Repairmen B*	202.00	212.00
Appliance Repairmen C*	182.00	196.00
Metermen A**	235.00	250.00
Metermen B**	202.00	212.00
Mechanics	229.00	244.00
Pipe Fitters	220.00	235.00
Installers	220.00	235.00
Apprentice-Mechanics, Pipefitters or Installers	177.00	184.00
Gas Plant Attendant	186.00	196.00
Helpers	146.00	164.00

*May also work in Electric Appliance Repair Department.
**May also work in Electric Meter Department.

SECTION XIII STEAM ELECTRIC GENERATING PLANT BOILER, TURBINE AND AUXILIARY EQUIPMENT OPERATORS—MONTHLY RATES		
Classification	Minimum	Maximum
Boiler or Turbine Operators	\$249.00	\$261.00
Assistant Boiler or Turbine Operators	229.00	244.00
Condenser Operators	209.00	224.00
Pulverizer Operators	197.00	212.00
Auxiliary Operators	169.00	178.00

Boiler Operators	200.00	212.00
Boiler or Turbine Operators	200.00	212.00
Auxiliary Operators	169.00	178.00

SECTION XIII (a) COAL HANDLING CREWS AT PLANTS MONTHLY RATES		
Classification	Minimum	Maximum
Mechanics—Locomotive or Tractor Operators	\$235.00	\$250.00
Crusher and Dumper Operators	186.00	196.00
Conveyor Operators	169.00	178.00

SECTION XIV STORES DEPARTMENT IN THE MONTHLY RATES		
Classification	Minimum	Maximum
Foremen	\$272.00	\$292.00
Stock Clerks A	235.00	250.00
Stock Clerks B	202.00	212.00
Stock Clerks C	182.00	196.00
Truck Driver Helpers	158.00	173.00
Helpers	146.00	164.00

SECTION XV METER READERS IN THE — DIVISION—MONTHLY RATES		
Base salary and bonus rates of meter readers shall be in accordance with the schedule herein. Changes in salary rate will be based on the date of employment as defined hereunder; and upon completion of the period of service required at his existing rate, he will receive his new rate beginning with the next payroll period. The date of employment in so far as application of base salary is concerned will be considered the date employee started reading meters.		
Classification	Minimum	Maximum
Skip and Special and Demand Meter Readers — Minimum, \$230.00 Maximum, \$240.00		
Regular Meter Readers (Urban and Rural) — Begin	\$152.00	
After 6 Mos.	157.00	
" 12 "	162.00	
" 18 "	167.00	
" 24 "	172.00	
" 30 "	177.00	
" 36 "	182.00	
" 42 "	187.00	
" 48 "	192.00	
" 54 "	197.00	

SECTION XVI METER READERS IN THE — DIVISION		
BONUS RATE (Payable Monthly)		
Efficiency Bonus (Combined Reading and Subtraction Errors):		
For no errors		\$20.00
For 1 error		\$16.00
For 2 errors		\$15.00
For 3 errors		\$10.00
For 4 errors		\$ 5.00
Over 4 errors		None

SECTION XVII LABORERS WORKING IN THE OPERATING, MAINTENANCE AND CONSTRUCTION DEPARTMENTS IN THE ABOVE NAMED SECTIONS AND IN THE ADVERTISING DEPARTMENT — MONTHLY RATES		
Classification	Minimum	Maximum
Laborers A	\$121.00	\$130.00
Laborers B	114.00	119.00

SECTION XVIII JANITORS AND PORTERS WORKING IN THE GENERAL OFFICE BUILDING, IN THE ADVERTISING DEPARTMENT, AND IN THE OPERATION AND MAINTENANCE OF THE DIVISION ELECTRIC AND STEAM HEATING DEPARTMENTS, AND STORES DEPARTMENT — MONTHLY RATES		
Classification	Minimum	Maximum
Janitors and Porters	\$114.00	\$119.00

SECTION XIX MAIDS MONTHLY RATES		
Classification	Minimum	Maximum
Maids	\$ 91.00	\$105.00

The monthly wages on the company's vessels for the employees covered by this agreement shall be as follows:

	*A	*B	*C
First Mate	\$410.00	\$385.00	\$360.00
Second Mate	335.00	310.00	295.00
Third Mate	285.00	270.00	260.00
Chief Engineer	560.00	485.00	440.00
1st Asst. Engineer	410.00	385.00	360.00
2nd Asst. Engineer	335.00	310.00	295.00
3rd Asst. Engineer	285.00	270.00	260.00

*A—PERSEUS, CANOPUS, JAMES WATT and CHARLES DONNELLY

*B—STEEL KING and E. C. POPE

*C—ADRIAN ISELIN, TAMPICO, FELLOWCRAFT and IRONWOOD

COMPANY: Confidential

UNION: Longshoremen--AFL

LOCATION: Middle Atlantic

SIZE OF COMMUNITY: Over 500,000

EFFECTIVE DATE: February 1947

WAGE REOPENING: None specified; 2-yr. agmt.

Wage scale for mates, cooks, and deckhands of non-propelled derricks:

Classification	Monthly Rate	Daily Rate	Hourly Straight Time Rate	Hourly Time and One-Half Rate
Mates—Class A	\$273.40	\$12.43	\$1.55	\$2.33
Mates—Class B	238.76	10.85	1.36	2.03
Cooks	237.72	10.81	1.35	2.03
Deckhands	207.70	9.44	1.18	1.77

COMPANY: Savannah Maritime Ass'n.

UNION: Longshoremen--AFL

LOCATION: Savannah, Ga.

SIZE OF COMMUNITY: 100-500,000

EFFECTIVE DATE: October 1947

WAGE REOPENING: Automatic adjustment to any wage change made by New York Longshoremen locals; agmt. expires Aug. 1948

	Straight Time	Overtime
Ship Foremen	\$1.80	\$2.70
Assistant Foremen, Dock or Wharf Foremen	1.55	2.32½
Shipside Clerks	1.55	2.32½
Weighers, Talley-men, Checkers and Samplers	1.35	2.02½
Hatch Foremen (only one to each hatch)	\$1.35	\$2.02½
Winchmen, Hatchtenders, Tractor and Lifttruck Operators	1.30	1.95
Gangmen (Holdmen, Hook men and Dockmen)	1.25	1.87½

COMPANY: Wilmington Transportation Co.

UNION: Marine Engineers--CIO

LOCATION: Pacific

SIZE OF COMMUNITY: --

EFFECTIVE DATE: April 1947

WAGE REOPENING: None specified; 1-yr. agmt.

Rates:

Engineers

\$375 per mo.

COMPANY: San Diego & Coronado
Ferry Co.

UNION: Inlandboatmen--CIO

LOCATION: San Diego, Calif.

SIZE OF COMMUNITY: 100-500,000

EFFECTIVE DATE: May 1947

WAGE REOPENING: None specified; 1-yr.
agmt.

Deckhand -----	\$1.23 $\frac{1}{2}$	Per Hour
Bridge Operator -----	1.23 $\frac{1}{2}$	" "

EFFECTIVE DATE: May 1947

WAGE REOPENING: None specified; 1-yr. agmt.

Rates:

Captain	\$2.04½ per hr.
Mate	\$1.63 per hr.
Licensed Quarter-master	\$1.34 per hr.

COMPANY: Automotive Trades Steamship Co., T.J. McCarthy Steamship Co.

UNION: Marine Engineers--CIO

LOCATION: Great Lakes

SIZE OF COMMUNITY: --

EFFECTIVE DATE: August 1947

WAGE REOPENING: At any time

Rates: \$570.25 per month for chief engineer

Hourly Rate	Overtime Rate	Weekly Wage	Approx. Monthly Wage
-------------	---------------	-------------	----------------------

		1st Asst. Eng.	
\$1.67	\$2.50	\$106.80	\$462.80

		2nd Asst. Eng.	
1.41	2.11	90.16	390.69

		3rd Asst. Eng.	
1.22	1.83	78.08	338.34

Weekly wages are based on 40 hrs. plus 16 hrs. at overtime rate; monthly wages are 4 1/3 the weekly rate.

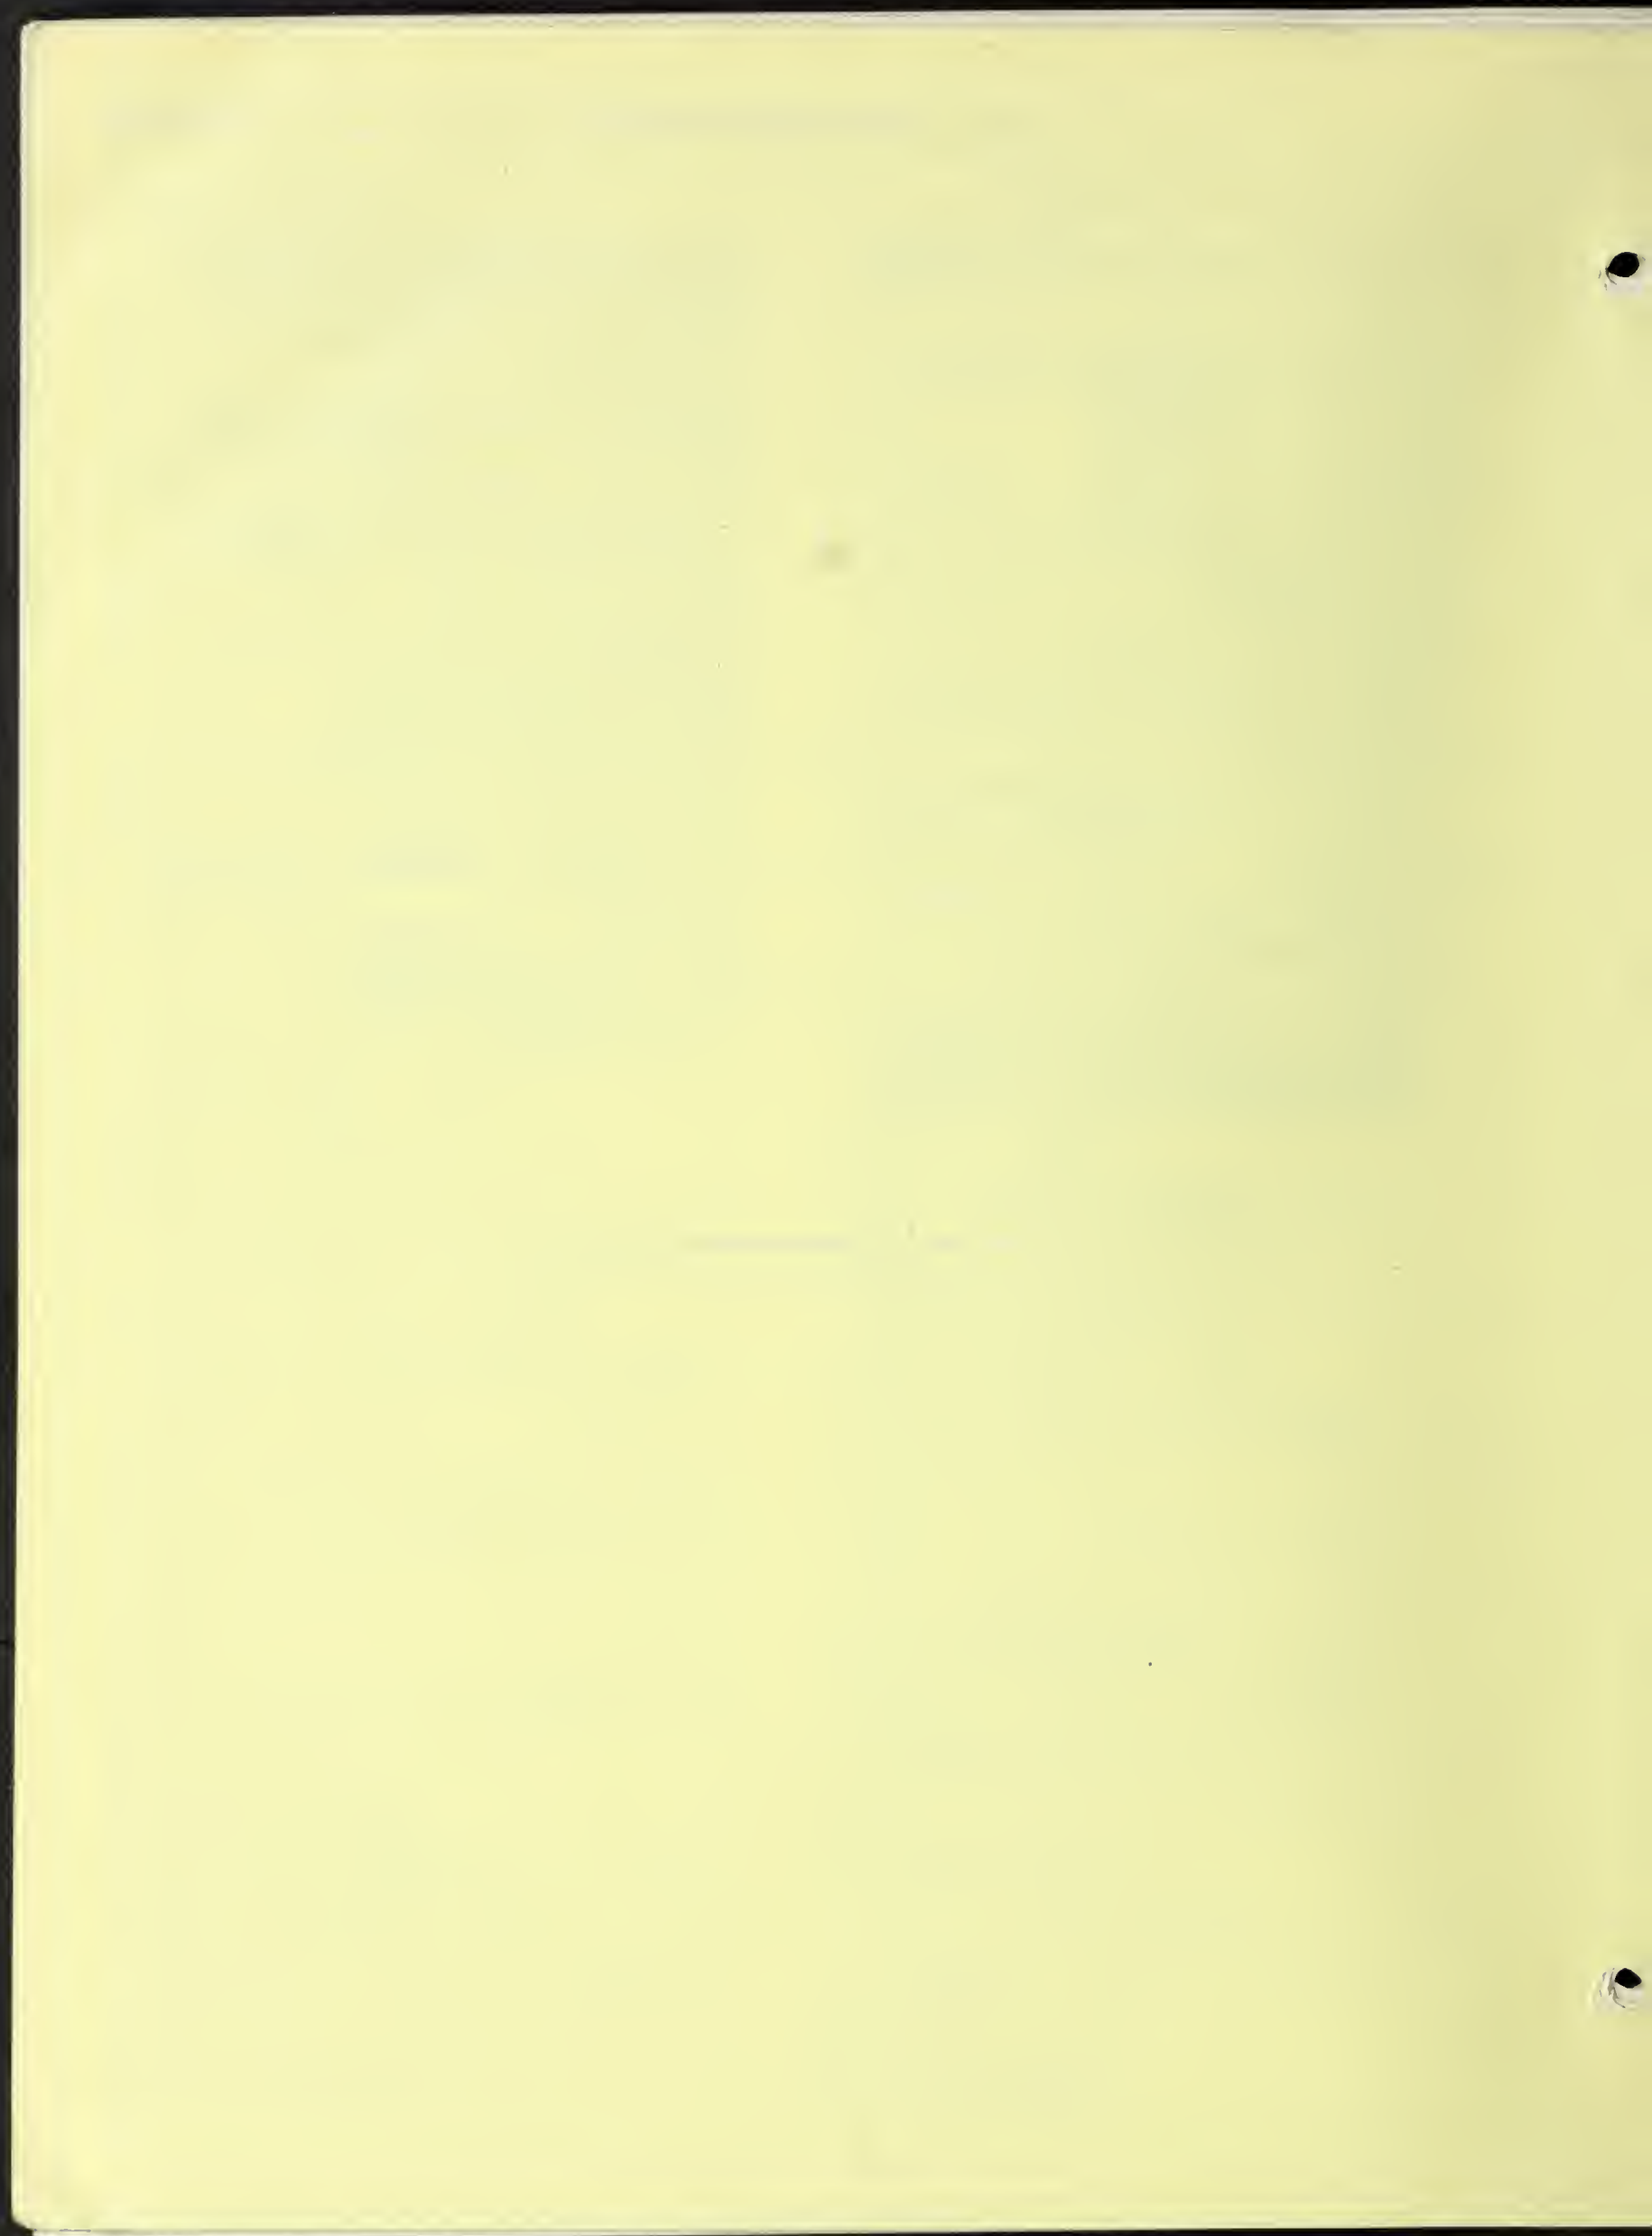

FINDING LIST—INDUSTRIES

Necessarily, the industry classifications used in presenting wage rates in this book are very broad. This finding list cross-references many of the smaller industry titles to the broader classifications where their rates may be found. In addition, it provides a means of cross-checking in many instances where major job classifications and rates cut across industry lines. In general, no attempt has been made to specify the product manufactured or type of business engaged in by companies whose rates are listed. However, where company names are confidential, some further identification of product is added, where this can be done without revealing the identity of the company.

FINDING LIST—SIZE OF COMMUNITY

Since wage rates tend to vary according to the size of the community in which the work is performed, listings of rates in this book are placed in the following population categories: Under 25,000; 25-100,000; 100-500,000; and over 500,000. Data are from the 1940 census. In cases where the census cites a "metropolitan area" figure larger than that of the community proper, the metropolitan area figure has been used. In some cases, where the community in which the plant is located is adjacent to a large metropolitan area and may be presumed to draw on that area for its labor force, the size of the larger community has been used. In the case of companies which have plants in several cities, or whose operations cross state lines, no "size of community" figure has been cited.

Under 25,000

Paint and varnish	289
Paper and paper products	293, 297, 298, 300, 301, 305, 307, 308, 309, 310, 311
Petroleum and petroleum products	316, 319, 320, 321
Pharmaceutical products	330
Plumbing, heating, and refrigeration equipment	348, 355, 359
Printing and publishing	363, 364, 366
Retail and wholesale trade	500
Rubber and rubber products	375, 377, 379, 381, 382, 383, 385
Textiles	403
Transportation equipment	411, 413, 416, 417, 419, 420
Trucking and warehousing	575, 582
Utilities--gas, electric, and water	603, 612

25-100,000

Aircraft	2, 4, 11
Autos and auto parts	15, 22, 24
Beverages	40
Building materials	45, 46
Canning and packing	64
Cereal and grain products	71
Chemicals and plastics	76, 89, 94, 101, 109, 111, 114
Clothing and apparel	123, 126
Electrical products	136, 142, 145, 148
Farm equipment	154, 167
Food products	176b
Furniture	181
Glass and clay products	183, 185
Hardware and light industrial equipment	195, 198, 212, 213, 215, 216, 220, 221, 222a
Industrial machinery	224, 233, 234, 238, 240, 241
Iron and steel and basic products	255, 259
Lumber and wood products	263, 264, 265, 266
Newspaper	478
Nonferrous metals and products	272, 278, 280
Paper and paper products	293, 309
Petroleum and petroleum products	315
Plumbing, heating, and refrigeration equipment	341, 345, 356, 358

25-100,000-Contd.

Radio and communications equipment	372, 373
Retail and wholesale trade	501
Rubber and rubber products	385
Shipbuilding	387, 391
Telephone and telegraph	503, 510, 511, 512
Textiles	402, 403
Transportation--bus, streetcar, and taxicab	568, 569
Transportation equipment	420
Trucking and warehousing	581, 583
Utilities--gas, electric, and water	586
Watches, toys, and novelties	421, 423
Water transportation	635

100-500,000

Aircraft	1, 7, 11
Autos and auto parts	14, 17, 18, 23, 24
Beverages	25, 33, 34, 35, 41, 42
Building materials	43, 45
Building service	447, 448
Canning and packing	67, 68
Cereal and grain products	69, 73
Chemicals and plastics	75, 79, 82, 91, 102, 103, 112
Clothing and apparel	117, 125
Construction	453, 454
Electrical products	127, 128, 140, 141
Farm equipment	155, 157, 159, 167
Food products	171, 174, 175, 176c
Furniture	179
Hardware and light industrial equipment	189, 190, 199, 209, 217, 220, 222i
Industrial machinery	227, 232, 240, 241
Iron and steel and basic products	245, 248, 249, 250, 254, 256, 257, 259
Lumber and wood products	261, 262, 264
Mining	463
Newspaper	476, 478, 479
Nonferrous metals and products	271, 272, 274, 278, 279, 281
Paper and paper products	308, 311
Petroleum and petroleum products	313, 318
Plumbing, heating, and refrigeration equipment	353, 357
